The joint resolution relative to

THE CENTENNIAL ANNIVERSARY

of Philadelphia passed as amended by Mr. Connell, to make the Commission consist of the Governor, speakers and three members from each House.

PUBLIC BUSINESS NOT POSTPONED.

Mr. GRAHAM introduced a resolution that after the 20th inst., no private bills shall be received till all the public bills shall be disposed of. Lost. Yeas, 11; nays, 20.

A communication from the Governor was received, stating that the Board of Managers of the Eastern Penitentiary have petitioned for the pardon of twenty-five prisoners convicted of flagrant crimes and sentenced to long terms, the institution being too crowded, making it impossible to carry out separate and solitary confinement and admit any more convicts.

The Governor disapproves this remedy, believing it necessary to enlarge both penitentiaries, and recommending a law transferring some convicts from the Eastern to the Western Penitentiary for present relief. He also recommends that Judges, as far as possible, sentence criminals for comparatively light offenses to county jails.

The Governor also sent an act of Congress relative to the centennial celebration, recommending the Legislature to generously and liberally encourage the exhibition by appropriations.

from the Senate was reported favorably. Both Houses adjourned till Monday evening.

41ST CONGRESS.

(THIRD SESSION.)

[By Telegraph to the Pittsburgh Gazette.]
WASHINGTON, March 3, 1871.

SENATE.

WEST VIRGINIA SENATOR.

Mr. BOREMAN presented the credentials of H. G. Davis, successor to his colleague, Mr. Willey, as Senator from Western Virginia for six years from March 4th. Read and filed.

VINEGAR.

Mr. SHERMAN from the Finance Committee reported back the House joint resolution to amend section 4, of the act of July 20, 1868, so as not to apply to fermented liquors used for manufacturing vinegar exclusively. Passed.

MUTILATED NOTES.

Mr. SHERMAN reported from the Finance Committee the House bill to provide for the reissue of National Bank notes, and other purposes providing for the reception by the Treasury of mutilated notes of National Banks, and the reissue in their place of new notes. Passed.

TELEGRAPH BILL.

On motion of Mr. SUMNER, the House bill relating to telegraph communication between the United States and foreign countries, and providing a code for the telegraph cable companies, passed as amended to limit the cost of cable messages of ten words t[illegible] exclusive of [illegible]

[illegible] bill, [illegible] trove[illegible] the Co[illegible] ing to [illegible] report w[illegible]

In conse[illegible] morning h[illegible] agreed to co[illegible] the State of O[illegible] The bill was ad[illegible] and Sherman; de[illegible] by providing fo[illegible] districts in Tennessee, Alabama and California. Mr. Sherman objected to loading the bill with amendments as endangering its passage.

NO RESERVED SEATS FOR RETIRED SENATORS.

Mr MORRELL, of Vermont, moved an amendment prohibiting the appointment of any member of the present Congress to any Judgeships provided for under the bill.

Mr. THURMAN thought the existing constitutional prohibition on the subject enough, and that such restriction was further objectionable, as it would be permanent and would prevent the President for twenty years after this from appointing to these positions any one now a Congressman.

LOBBYING BY REPRESENTATIVES.

Mr. BAYARD concurred in this view, but believed the presence of a number of members of the House of Representatives on the Senate floor, and their importunity to Senators to pass those messures creating new judgeships, to the disadvantage of the public service, deserve, and should receive, the most serious reprehension.

Mr. DAVIS moved to lay the bill aside.

Mr. SHERMAN said he would regard the vote as a test of the Senate, and called for the yeas and nays. The motion was carried and the subject disposed of—ayes 30, nays 28.

Messrs. Cole, Anthony and Vickers were announced as a Conference Committee on the deficiency appropriation bill, to confer with a similar committee from the House, consisting of Messrs. Lawrence, Allison and Randall.

Mr. COLE submitted a report of the Conference Committee on the

ARMY APPROPRIATION

bill which was read and laid aside informally.

Mr. HOWARD, from the Conference Committee on the

SOUTHERN PACIFIC RAILROAD

submitted a report which he explained. He said the bill as proposed to be amended by the Conference Committee was substantially the House bill, with the addition of two branches at the eastern and western extremities of the main trunk, known as the New Orleans Branch and Southern Pacific Railroad of California, both of which were provided for in the Senate bill. The length of the latter road as now proposed, was some two hundred miles less than as described in the original Senate bill. By other amendments the Company was required to make annual reports, and the name of the corporation was changed to the Texas Pacific Railroad, therefore avoiding any confusion in the negotiation of lands, there being already three Southern Pacific Railroads.

The bill, after some further explanation, passed. It now only awaits the President's signature.

A number of pension bills were also passed.

The report on the

CINCINNATI AND NEWPORT BRIDGE

was considered at some length, and was finally concurred in. The report provides that the channel span, as now located, shall have under said span a clear headway at low water mark of one hundred feet, and that no draw need be constructed. It also provides for adjudication by the courts whether the bridge has been constructed according to law, and as to the liability of the Government in consequence of the changes now required.

SOUTHERN "LOYAL CLAIMS."

The Senate concurred in the House amendment to the Appropriation bill, as to claims of Southern loyal citizens.

HOUSE OF REPRESENTATIVES.

Mr. GARFIELD moved to suspend the rules and pass the Senate bill for the reissue of bank notes. Rejected.

IMPORTS OF BREEDING ANIMALS.

On motion of Mr. CONGER the House joint resolution continuing the act of July 14, 1870, so as to admit, free of duty, animals specially imported for breeding purposes from the Dominion of Canada, passed.

LAKE ST. CROIX AND SUPERIOR R. R.

Mr. WASHBURNE, of Wisconsin, moved to suspend the rules and pass the Senate joint resolution extending the time to construct the railroad from the St. Croix River or Lake, to the west end of Lake Superior or Bayfield, with an amendment providing that no additional loans shall be granted. Rejected.

CONGRESSIONAL PERQUISITES.

Mr. PROSSER, from the Committee on Printing, reported the resolution to give complete sets of the Congressional *Globe* and appendix, to such members of the forty-first Congress as had not received them. Rejected.

INCREASE OF PENSIONS.

Mr. HAY moved to suspend the rules and pass the bill increasing pensions twenty per cent.

CROSS FIRING.

Mr. WILSON (of Ohio)—That bill involves $3,000,000.

Mr. DAWES—It will take $7,000,000 out of the Treasury.

Mr. STEVENSON—It will put it in a good place.

Mr. VAN WYCK—No matter if it took $70,000,000.

The motion was rejected by a large majority.

PHOTOGRAPHIC VIEWS OF THE LATE WAR.

Mr. PETERS, from the Library Committee, made a report in favor of purchasing from Matthew B. Brady, photographer of New York, at a cost not exceeding $25,000, his collection of photographs of scenes, incidents and characters in the late war, also, a report on the contract of the artist Powell for painting a picture illustrative of a naval victory. The reports were ordered to be printed.

FORTIFICATION BILL.

Mr. NIBLACK, from the Conference Committee on the Fortification Bill, made a report, which was agreed to.

FOREIGN TELEGRAPHS.

Mr. BANKS moved to concur in the Senate amendments to the House bill relating to telegraphic communication between the United States and foreign countries. Agreed to.

RIVER AND HARBOR BILL.

On motion of Mr. Sawyer, the Senate amendments to the river and harbor appropriation bills were non-concurred in and a Committee of Conference ordered. The speaker appointed as such Committee, Messrs. Sawyer, Potter and Ingersoll.

A CAREFUL BANK.

Mr. KELLOGG of Connecticut, reported a bill authorizing the re-issue to a bank in Greene county, Ohio, of some bonds destroyed by rats. Passed.

PATENT LAWS.

On motion of Mr. MYERS, the Senate bill to amend the Patent Laws was taken up and passed.

Mr. BINGHAM, from the Judiciary Committee, reported the bill to create a Northern Judicial District in the State of New York, which, after some debate, passed.

A LINCHPIN APPROVED.

On motion of Mr. STILES the Senate bill to pay $15,000 to George Wright as royalty for a patent linchpin, was taken up and passed.

TENNESSEE.

Mr. BUTLER (Mass.) moved to suspend the rules and pass the House bill to divide the State of Tennessee into two judicial districts. Rejected.

The chair being occupied by Mr. Ferry as Speaker *pro tem.*, Mr. COX offered the following resolution:

Resolved, That in view of the difficulties involved in the performance of the duties of this House, and of the conspicuously able, courteous, dignified and impartial discharge of those duties by Hon. Jas. G. Blaine during the present Congress, it is eminently becoming that our thanks be tendered, and they are hereby tendered, therefor.

He said, "Before severing our relations as members of this Congress, it is due to the Hon. Speaker that the resolution should receive no mere formal approval. Gentlemen of the Republican party have already testified their appreciation of Mr Blaine by his renomination without opposition as the presiding officer of the House in the next Congress. Their approval on this resolution is therefore an earnest, as well as a foregone, conclusion. From the opposition, which is more apt to be harshly critical upon a Speaker of an adverse party, this tribute is most conspicuously proper. He has been fair and just to us amid all our contentions and debates. Such expressions tend to beget an increase of good will and agreement, which is a rule of logic and rhetoric and is indispensable to the discharge of our duties not alone in Committees but in the House. There is great need of the amenities of debate. Moderation and benignity are at times almost impossible. Clamor will sometimes rule here, and no officer can calm it. Let us cultivate the charities of debate, and the feelings engendered will extend to the people of all sections. We may thus not only remove many of the prejudices and reproaches so often hurled at this branch of Congress, by the unthinking, but illustrate those christian virtues which make up daily beauty, and thus fit us for the final hour of dissolution. It is because the Speaker has been kind, gentle, prompt, able and honorable, and has won our universal respect by contributing to the effusion of good will and banishment of bitterness, that I have been delegated by our friends on this side to offer this resolution. If we can't have general amnesty from our legislation, we can at least have personal and social amnesty, and in this spirit I trust the resolution will have unanimous concurrence.

A COPPERHEAD SOREHEAD.

The resolution was adopted by acclamation, only one voice, that of Mungen, being heard voting no.

A COPPER COIN BILL.

On motion of Mr. COBURN, the Senate bill providing for the redemption of copper and other token coins was taken up and passed.

On motion of Mr. JULIAN, the Senate bill in relation to the Selma, Rome and Dalton R. R. Co., Ala., for a certificate of land, which should have been issued before, was taken up and passed.

CONTESTED SEAT—EXPENSE ACCOUNT.

The resolution to pay Thomas Baird, of Georgia, $2,500 for contesting a seat to which he was not entitled, was reported by Mr. Stevenson, from the Committee on Elections, and passed.

NO NEW POSTOFFICE FOR ALBANY.

Mr. MAYHAM moved to suspend the rules and pass the Senate bill for the erection of a Postoffice at Albany, New York, rejected.

[illegible]NCE COMMITTEE.

The Conference Committee of the Army Appropriation Bill will meet to-day. The Conferees are Senators Cole, Thayer and Blair and Representatives Deckley, Logan and Beck. Besides the amendments to the appropriations, the Senate has added

NEW LEGISLATION

Of great importance. One amendment disposes of the question of paying interest on the Union Pacific Railroad bonds by directing the payment to the road of the amount withheld for transportation of troops and supplies. This will probably be agreed to by the House. Another amendment opening the Court of Claims, the Quartermaster and Commissary General's Departments and the Accounting Offices of the Treasury Department, for the prosecution of all claims of loyal citizens of the South, for

SUPPLIES TAKEN BY THE ARMY

during the war, will be strongly opposed by the House conferees. It is asserted that this proposition, if adopted, will cost the Government fifty millions of dollars. A compromise may possibly be made by substituting for the Senate amendment the proposition of Wm. B. Washburne, to organize a commission to examine the claims and proofs of loyalty presented by the claimants, and report to Congress for further legislation.

APPROPRIATION FOR CAVALRY.

The Secretary of War has addressed a letter to Senator Cole protesting against the reduction made by the Senate in the items of appropriation for the purchase of horses for cavalry and artillery, and for the erection of barracks and quarters. He says without an appropriation for these purposes at least as large as were allowed by the House, many troops will have to be withdrawn from western parts for want of shelter, and that the cavalry will be dismounted in a great measure and withdrawn from the frontier. The Senate reduced the items for horses from $450,000 to $400,000, and the item for barracks from $1,000,000 to $750,000.

THE ENGLISH COMMISSIONERS DULY DINED.

Earl De Grey and Ripon will give a dinner to the American members of the High Commission. The Commissioners will dine with the President on Tuesday, and Secretary Fish will give them a reception on Wednesday. It is reported that the American half of the Joint High Commission is to be reinforced by the addition of George Bemis and E. H. Derby, of Boston, who have given years of study to the neutrality laws and the reciprocity treaty.

CHIEF JUSTICE CHASE.

Chief Justice Chase is expected to be here in a few days. His health is considerably improved, but his friends who have seen him recently have but little hope that he will be able to resume his duties upon the bench of the Supreme Court this Spring. His intention is to spend this summer and fall in Europe.

GOVERNOR OF DISTRICT OF COLUMBIA.

Henry D. Cooke, lately appointed Governor of the District of Columbia, informs the President that he cannot accept the position, for the reason that the negotiation of the new Treasury bonds will require his personal attention in Europe for several months to come. Another reason is that his family is in Switzerland, and he is unwilling to separate himself from them, which he would be obliged to do were he to undertake the task of organizing a territorial government, the *onus* of which devolves by law on the Governor. Mr. Cook will, at the request of the President, name a successor, probably Hon. A. G. Riddle, an ex-M. C.

INDIAN TROUBLES IN ARIZONA.

Private letters received from Florence, Arizona, say that the Indians are worse in Arizona to-day they have ever been before. Within the past two weeks they have attacked and either killed or captured the different parties within twenty miles of this place. One party of four men, in charge of two five mule teams with barley, was attacked and one man killed, and the others escaping after a vigorous fight. A day or two subsequently the Indians attacked the foraging party, consisting of three men with a four horse team. Two men were killed and the team was captured. The next we heard of the Indians was that they killed two men who were passing on horseback from Sacatan to the Salt river.

MEXICAN CLAIMS.

The sessions of the Mexican Claims Commission have been resumed.

CHARGES AGAINST SENATOR SPRAGUE.

Senator Thurman, from the Select Committee appointed, on motion of Senator Sprague, to investigate the charges made against him of unlawful traffic with the rebels of Texas during the late war, to-day submitted a report of the Committee.

HE IS EXONERATED.

After reviewing all the papers forwarded by the War Department, they say they find no evidence of any complicity of Senator Sprague in the alleged transactions. They implicate Messrs. Harris and Hoyt, and possibly some others. The Committee were discharged from further consideration of the subject.

A FENIAN SUES THE BRITISH LION.

Gen. Halpine has determined to sue the English Government for false imprisonment. It is stated to-day that he has been invited to appear before the Joint Commission at Washington, where a hearing will be given him.

A MEMORIAL WINDOW

to the late Alice Cary will probably be placed in the Church of the Strangers.

BOSTON.

Death of a Venerable Editor—Webster Bank Not so Green as Represented.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, March 3.—James W. Palmer, whose connection with the Boston press extended further back than that of any person now living, died to-day at the Coolidge House. He had been attached to the *Daily Advertiser* for over forty years, chiefly as Commercial Editor, and was well known as the compiler of Necrology of the Graduates of Harvard College. He was born in 1796, and graduated at Harvard in 1820.

The statement that the Directors of the Webster Bank had presented their late Cashier, who retired from that institution on a charge of embezzlement, with $1,500, is authoritatively denied.

GERMANY AND FRANCE.

THE TREATY RATIFIED.

VERSAILLES, March 3.—Favre to-day notified Bismarck of a vote of the National Assembly ratifying the preliminaries of peace.

"BARKIS IS WILLING."

Bismarck at once replied he was ready to exchange the formal ratification, and that the Emperor had already signed the treaty of peace.

PAYMENT OF THE INDEMNITY.

LONDON, March 3.—A Versailles dispatch says that the French indemnity is payable in three installments—viz: one million thalers in '71, two millions in '72, and two millions in '73. The interest is only payable on the last installment, from which the proportion of the debt appertaining to Alsace and Lorraine, estimated at one-half million thalers, and the cost of railways in eastern France, is to be deducted.

FAVRE WANTS PARIS EVACUATED.

PARIS, March 3.—Favre has gone to Versailles to-day to demand the immediate evacuation of Paris by virtue of the terms of the Convention.

GERMAN EVACUATION.

LONDON, March 3.—It is believed that the Germans will leave Paris this evening, or at the latest to-morrow morning. There is, in consequence, great excitement in Paris.

INCIDENTS OF THE ENTRY.

A crowd of Parisians, observing some Prussians on the courts of the Louvre and the Place du Carrousel, yesterday, attempted to use force for their expulsion, but were kept back by a line of troops, and pieces of cloth were hung over the gate to hide the Prussians. Conflicts are expected if the Germans do not soon evacuate the city. Some of the Germans wished to have a line of demarcation, offering their hands and saying, "Now that peace is concluded, we are friends," but were repulsed with the phrase, "With conditions imposed by Bismarck we never can be friends."

ADVENTUROUS PRUSSIANS.

Some disguised Prussian officers penetrated into the city, but were soon recognized and their lives were in danger from the people, they were protected by the authorities and re-conducted to the German lines.

The populace are less calm than yesterday.

PARIS EVACUATED.

LONDON, March 3.—A special telegram to the London *Times* from Versailles, says the Germans evacuated Paris to-day, and Prince Frederick Charles retires behind the Seine. The Emperor and Crown Prince will leave in a few days for Ferrieres or some other point near Paris, on the right bank of the Siene. The Parisian populace wreaked their vengeance on several men and women who were seen communicating with the German soldiers.

BELGIAN MILITIA SENT HOME.

BRUSSELS, March 2.—The Belgian army being placed on a peace footing the militia have been sent to their homes. Peace plenipotentiaries will hold their sittings at the hotel de Ville at Brussels.

GERMAN EMPLOYES.

LONDON, March 2.—A league is being formed at Havre to prevent the return of German employes.

[Special to N. Y. Herald.]

ARTICLES OF PEACE.

VERSAILLES, March 2.—The preliminaries of peace arranged by Bismarck and other plenipotentiaries with Thiers and Favre are as follows:

Art. 1. specifies a line of demarcation.

Art. 2 Provides that France will pay the Germans five milliards of francs, one milliard at least in 1871, and all the rest in the space of three years from the ratification.

Art. 3d provides that evacuation is to commence on the ratification of the treaty by the Assembly; that the German troops will then immediately quit Paris and the left bank of the Seine, and also the Departments of Cherindre, the Loire and Seine and Inferieure, the French troops to remain in the region behind the Loire till the signing of the treaty of peace, except those in Paris.

GERMANS TO EVACUATE.

The Germans will evacuate the right bank, of the Seine gradually, after signing the definitive treaty and the payment of half a milliards of francs.

NO FURTHER REQUISITION.

Art. 4 Provides that German troops will make no further requisitions; that the French Government will find food for the army in occupation of the ceded department; that favorable arrangements will be made with the inhabitants and time given them to move if they please, and no obstacle will be placed in the way of emigration.

A CASH BARGAIN.

After the payment of two milliards the Germans will only hold the departments of Marne, Ardennes, Meuse, Vosges, Meurthe, and Belfort. After the payment of three milliards the Germans will only keep 50,000 troops in France. But if a sufficient money guarantee be given, the Germans will evacuate it completely at once; otherwise three milliards will carry interest of five per cent. from the ratification.

PRISONERS RELEASED.

Art. 6th, provides that the prisoners will be immediately liberated on the ratification of the treaty, and that the French Railroads will lend them carriages and engines at the same prices as to the French Government.

Art. 7th, provides that the treaty will be definitely signed at Brussels immediately after ratification.

MILITARY OCCUPATION.

Art. 8th provides that after ratification, the management of all departments to be occupied will be handed over to the French officials, subject to German commanders and in the interest of German troops.

Art. 9th provides that it will be understood that the Germans have no authority over departments not occupied by them.

BISMARCK DISAPPOINTED.

PARIS, March 2.—It is said Bismarck is disappointed at the haste made by France in ratifying the treaty, as it gives the Emperor no chance to enter the city. Excited mobs surround German troops, and conflicts are feared.

OFFICIAL NOTIFICATION OF PEACE.

BERLIN, March 3.—The Empress has received the following dispatch from the Emperor:

VERSAILLES, March 3.

"I have just ratified the conditions of peace which the Bordeaux Assembly accepted. Thus far the work is complete, which was through seven months of battles, to be achieved. Thanks to the valor, devotion and endurance of our incomparable army, and the sacrifice of the whole Fatherland. The Lord of Hosts has everywhere blessed our enterprises, and by His mercy has permitted an honorable peace. To Him be honor, and to Fatherland thanks.

(Signed) "WILHELM."

COLLIERY EXPLOSION.

There was another terrible colliery explosion yesterday at Victoria. The dead will probably number twenty.

ENGLAND.

THE ALABAMA CLAIMS.

The *Pall Mall Gazette* expresses the belief that the High Commission will avoid all difficulties as to the distribution of the Alabama claims, but will agree to pay a round sum of money, leaving the division of the same to the United States Government.

MINISTERIAL CHANGES.

LONDON, March 2.—The resignation of Mr. Childers, First Lord of the Admiralty, is again reported, accompanied by the statement that Earl Kimberly succeeds him, and that Chichester Fortesque assumes the duties of Minister of Colonies, made vacant by the transfer of Kimberly.

IRISH MATTERS.

In the House of Commons this evening, Mr. Patten, the Conservative member for North Lancashire, resumed the debate on the Irish question. He urged the withdrawal of the motion for a committee to devise further measures and to grant greater powers to enable the government effectually to repress the mischief of secret combinations in Ireland, and particularly in Westmeath county, and a return to the policy of authorizing the government to suspend the writ of habeas corpus in cases of necessity. He said the government had by its motion confessed the failure of its Irish policy.

Mr. Gladstone in reply objected to the course suggested by the members, based on an exaggerated statement of Mr. Goschen. In the course of further discussion, and in reply to some remarks of D'Israeli, he said he was quite willing to see the Right Honorable gentleman exult over the supposed superiority of the torry policy, which was simply that of conquest. In the meantime, the government might postpone the inquiry, if it were found upon investigation to be untimely and premature.

SUSPENSION OF HABEAS CORPUS.

The Premier asserted that the Government would violate the Constitution if it should suspend the *habeas corpus*, unless the necessity for such action was first assured by inquiry. Mr. Gladstone concluded by a warm appeal for the adoption of the motion before the House. The Premier was evidently ill and exhibited signs of anxiety.

ACTION, NOT INVESTIGATION, WANTED.

Secretary Robert Peel and other members followed in a vigorous attack upon the Government, asserting that it was action and not investigation that was wanted—action which the opposition would gladly back to check the dissatisfaction on the American question. The Solicitor General sought to interpose, and denounced the ingratitude which had been shown to the leader who had ensured the passage of so many important measures, without ever before incurring a denunciation from feeble-minded Torys.

SHAKESPEARE.

He compared D'Israeli to Shakespeare's lean apothecary, whose poverty and not his will drove him to such resources.

Maguire at this point moved an adjournment of the debate, but D'Israeli and Gladstone both protested against closing the debate and defeated the motion. An adjournment of the House was also defeated amid great excitement. The motion for a select Committee was adopted by eighty-one majority and the session soon after terminated.

GREAT BRITAIN'S CLAIMS AGAINST US.

According to a Washington correspondent, the counter claims of Great Britain for damages to the property of Englishmen in this country during the war of the rebellion and in Canada for injuries received by the citizens of the New Dominion during the Fenian raids will probably be insisted upon and pressed in mitigation, by the British members of the High Commission, at least of the Alabama bill, and even intimates that the total of damages from these sources on their side will run up considerably more than the total on our side.

Judge Blatchford issued an order to-day decreeing the Boston, Hartford and Erie Railroad a bankrupt corporation.

CHICAGO.

Land Grant Railroad Bill Voted—Indian Movements.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, March 3.—Governor Armstrong last night sent to the Senate his veto of what is known as the Land Grant Railroad bill, dividing up the internal improvement lands among several railroads. The message is quite lengthy. The Governor says he is well convinced and thinks he knows to a moral certainty, that it is not free and voluntary with a majority of the Legislature. The veto was sustained by a vote of 13 to 10. The Legislature adjourned to-day.

Intelligence has been received at Lieutenant General Sheridans head quarters in this city from Fort Laramie Wyoming Territory and other parts in that region, that the Indians are breaking up their camps to the north of the Pacific Railroad, and preparing to move south on the opening of spring to occupy their reservations in the Indian territory. The Arapahoes are foremost in the movement, having already started to their journey in large numbers. The apprehensions which dispatches to Washington city said were felt that the breaking up of winter would at the same time cause trouble among the savages themselves as well as the whites, are dispelled to a certain extent by this information. Government agents are actively engaged in assisting the movement of the tribes, so that everything is expected to pass off smoothly, and it is thought war would be averted. There are great numbers of Indians in the region of the Pacific Railroad in Wyoming, but they are of tribes that are disposed to be peaceable, Arapahoes and some other bands, and if the Sioux do not disturb them the prospects are, from news received, that the summer will see the savages all stowed away in their reservations.

That Nice Little Fight—Hard to say who is the under Dog in the Fight.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, March 3.—The *Avalanche* Little Rock special to-night says he who could compass the political situation here, with all the ramifications and details of the movements of different factions, would have to be wiser than Solomon. Who is the Governor? That is the question. To the demand of the Lieutenant Governor for office a few days since, Clayton responded that the Lieutenant Governor had been misinformed when he supposed that he was suspended from office by impeachment resolutions before the articles were presented to the Senate, where no quorum was present, but on Thursday new managers appeared and announced the impeachment in due form. Clayton continues to exercise the functions of Governor, however, and from the tone of this morning's *Republican* it is presumed he has no notion of giving up.

The Liberals and Radicals Join Hands—Address by Hon. Mr. Bross, of Chicago, Before the Alumni of Washington University.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, March 3.—The action of the Liberal and Radical County Committees at their meeting yesterday was the unanimous adoption of resolutions declaring that the two Committees agreed to form a union as one Joint Committee, and that the organization of the regular Republican Committee shall be the organization of the Joint Committee, and also declaring the union made in good faith and pledging a united effort for the best interests of the Republican party. Previous to the adoption of these resolutions the officers of the Liberal Committee resigned. There being vacancies in the Committee, Judge Allen, President of the former Liberal Committee, was elected Vice President, and George Frederick Treasurer. A committee was appointed to draft and issue an address to the Republican voters of the county. No election for members of a new committee will be held, as intimated in a dispatch last night.

The Alumni Society of Washington University held its annual meeting in the hall of the University last night. The address was delivered by Hon. Wm. Bross of Chicago, the subject being the "Elements of Natural History," and was listened to by one of the most intelligent and cultivated audiences ever assembled in St. Louis. After the address about two hundred guests sat down to a banquet, at which toasts, speeches and a general good feeling prevailed until a late hour.

"IT is said," reports the Boston *Herald*, "that some four or five years ago the clerks employed in one of the banks that has recently suffered from defalcation, applied to the directors for an increase of salaries. This request was not granted, but the clerks were told that if they needed more money they must earn it outside."

MRS. H. B. STOWE, in writing of the descendants of the Puritans says, "Their history runs back to an ancestry of unworldly faith and prayer and self-denial, of incorruptible virtue, sturdy resistance of evil, and pursuit of good." Whereas just about the contrary is the fact, most unwelcome light having been let in upon them by the modern searchers after truth.

MR. DAVID J. A WRITER in an English sporting paper who had thoroughly explored and hunted through all the accessible regions of the Rocky Mountains, says that the wild goat found on the highest peaks there is furnished with hair of a quality admirably adapted for weaving into textile fabrics. That is a specimen of the vilest copperhead wit, which still is popularly received in the Democratic party.

M. POUCHET notes the singular fact that the common swallow of Europe has modified the shape of its nest within fifty years. The old swallow nests were globular with a very small rounded opening. The nests now are long and oval, and the opening is a long slit, four or five times as long as high, close to the top of the nest, where it meets the wall above it. This is an improvement on the old nest, as the young are not so crowded and can reach out their heads for fresh air, while their presence does not impede the ingress of the parent.

MRS. LYDIA STUDLEY, who, at the age of seventy years, was convicted of the murder by poison of her husband, has been pardoned out of the Rhode Island State Prison, of which she has been an inmate for about twelve years. Mr. Studley was not the only husband of whom the old lady had disposed, for one Jones, who married her years ago, died from the effects of arsenic by her administered. There has been strong opposition to her receiving a pardon, but it has been overborne, as there is little probability that the old lady will marry again.

THE loveliest fancy dress quoted from abroad is a flower costume. This is simply an ordinary evening dress with demi-trained skirt, made up entirely of ruches of shaded silk, alternately mauve and violet, sewed on a tarlatan foundation. The ruches are very full, notched on the edges, and caught up between the plaits to look like flower petals. To soften all this is an overskirt of violet tulle, with long slender vines of dark green leaves of the violet looping the skirt on the hips, and trailing behind for a sash. The dress looks like a huge bouquet of Parmesan violets.

FIRST MORTGAGE
7 Per Cent. Gold Bonds,
ON A COMPLETED ROAD.
(FREE OF U. S. TAX.)
At 90 and Accrued Interest in Currency.
Burlington, Cedar Rapids & Minnesota Railway.
The completion of this Road has given to these Bonds an established character equal to any mortgage issue dealt in at the Stock Exchange. We are prepared to buy and sell them at any time, at our Banking House, at market price—thus placing them on the same basis, for temporary or permanent investment with, Governments or any other security.
These bonds are a first and only mortgage on a railroad that has cost double the amount of the issue, and which commands, without competition, all the traffic of Northern Iowa and Southern Minnesota—shortening the distance from St. Paul to Chicago 45 miles, and to St. Louis more than 90 miles.
The net earnings are already largely in excess of interest on the bonds, and no doubt exists that they will more than double within the ensuing year.
A contract has been secured with the Chicago, Burlington and Quincy Railroad Company, obligating the latter to invest 50 per cent. of gross earnings derived from traffic with the Burlington, Cedar Rapids and Minnesota Road in the bonds of this Company. This arrangement is a strong guarantee of the Bonds, and establishes a large sinking fund for their redemption.
The convertibility privilege in these Bonds enables them to be exchanged for stock at par at any time. This secures to the holder, at his option, a share of any excess of earnings over the interest obligation.
An exchange of Government securities for these Bonds returns 9½ per cent. interest, instead of 5 per cent., which is all that Governments pay at present price, besides leaving an immediate gain of 20 per cent. in price for reinvestment.
All marketable securities taken in exchange free of commission and express charges.

THE DAILY GAZETTE.

OFFICIAL PAPER
Of Pittsburgh, Allegheny City and Allegheny County.

GAZETTE BUILDING:
Corner of Main Avenue and Smithfield Street.

SATURDAY, MARCH 4, 1871.

HEADQUARTERS
REPUBLICAN STATE CENTRAL COMMITTEE
of Pennsylvania,
No. 1105 Chestnut Street,
PHILADELPHIA, January 23, 1871.

In pursuance of the Resolution of the Republican State Central Committee, adopted at Altoona, August 16, 1870, a State Convention, composed of delegates from each Senatorial and Representative District in the number to which each district is entitled in the Legislature, will meet in the Hall of the House of Representatives, at Harrisburg, at 12 o'clock, noon, on the 17th DAY OF MAY, A. D. 1871, to nominate candidates for Auditor General and Surveyor General, and to take action upon the question of Constitutional Reform, and for the transaction of such other business as may be brought before it.

MAHLON H. DICKINSON,
Chairman Executive Committee of State Central Committee.

GEORGE W. HAMERSLY, }
M. S. QUAY, } Secretaries.
JAMES W. M. NEWLIN, }

OVER six thousand women have memorialized Congress against female suffrage.

ALABAMA, Georgia, Indiana, North Carolina, Tennessee and Virginia, have contested election cases to be settled by the present Congress.

NEW HAMPSHIRE will hold her Gubernatorial and Congressional election on the 14th of this month, and Connecticut holds an election on the third of April.

A SHORT telegram announces that the Apportionment bill has been reported in the State Senate, giving Allegheny county seven representatives and three Senators.

FREDERICK CITY, Maryland, at the late Congressional election, gave a Democratic majority of seventy-eight. The recent election for city officers resulted in electing a Republican Mayor, a full board of Republican Aldermen, and four Republican Councilmen.

THE Committee on the Revision of the Laws, are opposed to the proposition contained in the bill to modify the Bankrupt act; giving to Registers in Bankruptcy additional powers as Judges of Inferior courts. The Committee believe that the Registers have sufficient power already.

THE *Hearth and Home*, thinks that in a short time we will have a flood of immigration into this country from France that will make a valuable addition to our working population. It thinks this addition will come from the peasants of France, and that it will supply a want of housekeepers, that has long been severely felt.

THE UNFORTUNATE and annoying difficulties that have so long divided the Republican party of Missouri have at last been settled amicably by the union of both wings of the party. The Republicans of Missouri have been taught the lesson that reforms can best be accomplished inside the party, not outside, and it is a matter of congratulation all around that political harmony has at length been restored.

THE ARBITRATION of the Alabama claims by the Joint High Commission may not prove so satisfactory to the people after all. England, it seems, has been keeping tally against us, charging up all the losses sustained by her citizens during the rebellion, and from the invasions of the Fenians into Canada. These counter claims, it is intimated, will balance our account, and perhaps throw us into debt to Great Britain. Such a result will not prove palatable or agreeable.

THUS FAR the Southern Investigating Committee has extended its inquiries only to North Carolina. It has been continued however until this session and earnestly pursue its investigation. Another effort was made by the Democracy to have all the testimony published. This no doubt was for the purpose of having certain men from the Southern States present to overawe if possible the witnesses, or if unable to do that, to have a full report of their testimony, to be used at midnight when they return home.

ONE of the strangest features in the New Haven divorce case of Christopher C. Bowen, is that Bowen, or some one claiming to be Bowen, appeared before Judge Phelps of the Superior Court and swore that he had lived in New Haven for three years. This was in the October term of the Court. At the time therefore that this oath was taken, Bowen was a Representative to Congress from South Carolina. How it was possible for this fact to escape the knowledge of every one present, it is difficult to imagine. Certain it is that fraud, and base fraud exists.

THERE HAS been much agitation over the Committees of this, the XLII Congress, whose first session commences today. The complaint is, that some Committees have been overburdened with work, some are perfectly useless, and many of them, do not properly attend to their business. This last complaint affects the members of those Committees generally, and we do not see how the fact is to be rectified. There is however one habit in Congress, that should be at once gotten rid of. Members frequently request that certain bills, may be referred to certain Committees for action, when the Committee named has not been appointed for any such purpose, and there is a Committee whose duty it is to attend to such bills. The object in thus referring them out of their regular channel, is to gain more speedy action. It is a mistake, and should not be allowed. We understand that a rule to this effect will be adopted by the present Congress.

THE Senate Amendment to the Army appropriation bill, provides for the examination and payment of claims of Southern *loyalists*, for Quarter Master and Commissary stores, furnished to the Union Army. These claims are to be submitted to the third Auditor of the Treasury, and revised by the Second Controller. The House has refused to concur in this Amendment, because it believes that a proper examination will not be made in that way. It proposes to refer the claims to a board of three Commissioners, to take testimony, and report in writing at the commencement of each session of Congress. The Senate, however, insists on its amendment, and between the two the claims may fail altogether. Whatever is done should be done carefully, for it opens the road for vast expenses. Perhaps the number of *loyal* Southern claims are few in number, and might be, and probably ought to be paid. But should such a bill be passed, there will be nothing but loyal southern men, and favoritism mingled with what might incorrectly be termed *policy*, may be the cause of a monstrous expenditure of money.

CINCINNATI AND NEWPORT BRIDGE.

It is rumored that the Conference Committee on the Newport and Cincinnati bridge have agreed on a report, providing for the alteration of the bridge in many particulars, and making it much less of an obstruction to navigation than it is at present, and also the Bridge Company shall be compensated in damages, should a court of equity decide that the bridge has been erected in accordance with the existing law. This is not the first rumor of the kind we have received, and while we sincerely hope that this great obstruction to the navigation of the Ohio may be removed, we are not disposed to place implicit reliance on the present report. Once before, at least, an agreement, almost identical with this, was made, but broken before it was a day old, and this agreement may share the same fate. We hope such will not be the case, but prefer to wait for further information. It is but just to General Negley however to remind our readers, that long since, he predicted that this course would be taken, and his judgment, no matter how much personal enemies may choose to malign him, has proved correct in almost every instance.

FRANCE.

The amount of debt under which France will labor should she be able to negotiate loans sufficient to meet the demands, it is estimated will reach the enormous sum of $4,700,000,000. We have it rumored that Baron Rothschild has promised to pay the entire indemnity to Germany within a year. It is hardly possible to realize the truth of this statement, if for no other reason, because at present France is without any fixed or settled Government, and appearances are against her having any unity of sentiment for some time to come. For Baron Rothschild therefore, to enter upon such a scheme is, we think, exceedingly improbable, nor do we believe that it will be possible for France to meet the demands made. It is true that the terms of peace do not require one-fourth of the amount mentioned above, the estimate being made to include not only the German demands, but the French debt prior to the war, together with the war expenditures. But even with this fact acknowledged, it is not likely that Rothschild will involve a sum amounting to $1,000,000,000 when at the same time the country is oppressed so heavily outside of the German claims. The first thing for France to do, is to form an acceptable Government. If she fails to do this, she will fail to raise the amount of money required, and she will have no bidders for her loans, until that acceptable Government has been created. It may be true that the Baron has made the proffer, but we regard it as one of those sensational items that cling so closely to the excitements surrounding the present condition of affairs.

RELIGIOUS INTELLIGENCE.

For years the *Independent* has been quite a favorite exchange of ours, notwithstanding the netrodox views of Mr. Tilton, its late editor. Since Mr. Bowen, the proprietor, has assumed editorial control, the paper has greatly improved in every respect, and no department is more acceptable to us than its religious. It never was so thoroughly evangelical as now and is worthy to be classed among religious journals as at present. The issue of this week is a magnificent number, and reflects great honor upon the enterprising conductor of this paper, and also illustrates what brain and money can accomplish.

The Bishop of Florida, Protestant Episcopal, ordained a colored man name Love, not long since, said to be the first colored man ever ordained by the Episcopalians in the South.

The International Convention of Young Men's Christian Associations will hold its next annual session in Washington city, D. C., commencing May 24th.

According to the *Congregational Quarterly* the statistics show a gain of seventy-nine churches and six thousand one hundred and fifty-six members, over the previous year.

A remarkable revival of religion prevails at Bristol, N. H., in which the churches are united in carrying it forward. Business men, in fact all classes, are laying aside their work to attend to the salvation of their souls. Over four hundred have been found at the altar of mercy.

The *Independent* shows the relative strength of the leading Protestant denominations in this country, from which we learn that the number of Baptist churches is nearly twice as much as that of the Baptist ministry. The Methodists have a larger proportion of ministers to churches than among the Baptists. The number of churches and ministers of the Presbyterian Church, show nearly an equal proportion, while the Episcopal Church has more clergymen than parishes.

It is stated that Mrs. Jane G. Swisshelm, formerly of this city, in a lecture in Chicago, delivered from the rostrum of the United Presbyterian Church, claimed that the Bible and the Christian Church were the authors and advocates of Woman's right to the ballot.

Many of our readers will regret to learn that, according to the Philadelphia papers, the Protestant Episcopal Church of the Saviour of that city, Rev. Charles W. Quick, rector, has been sold by the Sheriff, the purchaser being Samuel W Flood, Esq.

Much regret is expressed at the removal of Rev. Dr. Rylance, of St. James Episcopal Church, Chicago, who has accepted the Rectorship of St. Mark's, in the Bowery, New York city. The *American Churchman* editorily expresses regret, and pleasantly says: "Ah, doctor, how could you forsake the metropolis of America for that foreign village on Manhattan Island?" Chicago forever!

Dr. Saunders, Principal of Saunders' Institute, in West Philadelphia, offers his property, nearly a whole square with substantial buildings on it, and all valued at one hundred thousand dollars, to establish a Presbyterian Hospital in that city. This he proposes to donate to the Church, simply requiring that an annuity of four thousand dollars should be paid him and his wife during their life-time.

An Episcopal Church was dedicated recently in New York, of the most liberal type, as will be seen from the following basis of faith: "Our rule of faith—the Holy Bible alone; our standard—the doctrines of the Protestant Reformation; our resolve—unrestricted fraternity and communion with evangelical denominations; our work—the salvation of souls; our worship—common prayer and common praise; our want—aid from all whose hearts are with us." The church is to have two pastors—Rev. George E. Thrall and Rev. Mason Gallagher.

The Supreme Court of Indiana has just decided that the managers of camp-meetings have the right to forbid huckstering within one mile of their ground.

Rev. J. F. Ware, a Unitarian minister of Baltimore, advocates the plan for Christian people to attend the theatre and Christianize it.

The annual income of the Church Extension Society of the Methodist Episcopal Church, has increased very rapidly since its organization a few years ago. Three years ago the annual income was forty six thousand dollars and now it is one hundred and twenty thousand. It is estimated, when it reaches three hundred thousand or even less, they will be able to build a new church every day in the year.

The next session of the Pittsburgh Conference of the Methodist Episcopal Church, will be held at Steubenville, Ohio, commencing March 15, 1871. Bishop Clarke is expected to preside. A daily Conference paper will be published during its session.

A lady belonging to the Episcopal Church recently presented a beautiful and costly communion service to the West Chestnut street Presbyterian Church, Philadelphia, Rev. Dr. Nevin, Pastor.

Rev. Theodore L. Cuyler, D. D., of Brooklyn, will deliver the Annual Discourse at the close of the present term of the Western Theological Seminary, Allegheny, Pa., Tuesday evening, April 18.

Bishop Whitehouse, of Illinois, in his late annual address, speaks of the questionable policy of churches fitting up kitchens and supper-rooms in church buildings, and of the censurable indulgences that are often witnessed in church sociables.

The *Protestant Churchman* devotes several columns to a collection of historical extracts showing that "the exclusive validity of Episcopal orders is not the doctrine of the Church."

It is estimated, from the published returns of the revivals which have prevailed in every county in the State of New York, that over ten thousand persons have professed religion this winter.

The United Presbyterian Church at Baltimore, under the pastoral care of Rev. Wm. Bruce, one year ago adopted the experiment of abolishing all pew rents, and depend entirely upon the weekly contributions on the Sabbath for the means of meeting the current expenses of the church. The experiment has resulted in paying all expenses and a surplus of about two hundred dollars in the treasury.

There are ninety-two theological seminaries in the United States. Of them are fourteen Roman Catholic, in which nearly twelve hundred students are preparing for the priesthood and other offices in the Church.

THE OLDEN TIME.

II.

In compliance with your request I shall again call up the memories of the past and continue my recollections of Water street.

On the corner of Ferry street, opposite to that on which was the house of David Morgan, stood what was once the renowned Beer House kept by genial, kind hearted Florence Cotter. Next to him was the residence of Robert Shannon the well known drayman, and beyond that was the tap room of James McKay who in addition to his vocation, had the advantage of issuing his private shin-plasters, representing money, for the accommodation of the public. Adjoining this was the tavern of John Kelly, afterwards kept by Mr. Burwell, and then came the ware-house of Oliver Ormsby. But few persons now living remember the vault way from this warehouse across Water street to a large wooden platform on which an apparatus had been erected for hoisting goods from the keel boat landing below, and running them under ground directly into the cellar of the store-house without any hauling.

Across the alley, Chancery lane, was Mr. Ormsby's residence occupied by his large family. The young ladies of the family were noted for their partiality for orange colored garments. Well do I remember, too, the marriage of the eldest daughter to her cousin R. G. Ormsby of Kentucky, it was one of the grand events of that day.

William Steele lived next door. He was a useful and respected citizen; and adjoining his house was the stage office and inn kept by James Gibson. This was the centre of the life of the town. Here arrived and departed the coaches to and from Philadelphia. Three times a week they left, and were seven days on their journey before they arrived at the Quaker City, traveling nearly all that time, day and night. The arrival of a stage was a matter of great public interest then, and when the notes of the tin horn, announcing an arrival, were heard, men and boys would run up from all quarters. One of the famous drivers of those dyas still survives—the venerable Wm. Small—who has passed his four score and ten years. His whilom companion, Charley Stewart, has long since gone to that bourne from which no traveler returns. Pug, their old pet dog, used to partake of the joy of an arrival as much as any one, and was quite frantic in his loud-voiced welcomes.

Adjoining the stage office was the residence of John McDonald, Esquire, and then came that old log house on the corner of Market street, which still stands, the logs having been weather boarded over, while all around it has been changed so as to be quite beyond the recognition of any of the "prominent citizens" of that time.

Before crossing Market street I will recall an incident which occurred in the middle of that thoroughfare, and which was a great event at the time. Few persons now living can remember Tibbet the barber, the great man of his profession, or as he used to be called, "The Emperor of the West." A number of the jolly, genial men of that day, such as Steele Semple, Woolman Gibson, Alexander Johnston and numerous others, decided to honor his imperial highness by erecting a magnificent pole, symbolical of his profession, near the bank of the river and directly in the centre of Market street. Accordingly, one of mighty proportions was procured, and appropriately painted, and a day appointed for its erection, at which time the whole town was gathered together to see the pole-raising, and Tibbet himself was there in full regimentals, with a sword by his side and mounted on a charger. But the ambition of the citizens was too lofty; the pole couldn't bear its own weight, and broke before it was raised to a perpendicular. However, the Emperor and his men were not discouraged, but simply raised the pole in two pieces, and so it remained there as a sign for a number of years.

But to proceed along Water street. On the east side of Market, stood a small frame building, occupied as a liquor shop by Henry Smith, and numerous were the frollicks and rows which there took place among the boatmen of that day. This house, with the whole square between Water and Front streets on Market, was afterwards burned down and replaced by a handsome block of three story brick warehouses by Christy Iowan, and it is but a few years since they were pulled down to make way for the elegant Bagaley block. The next house on Water street was that of Davy Jones, the noted boat-maker of that day, and next came Newton's Button factory, for even then this was the site of several manufactories. The buttons were made of lead. Adjoining was the chair factory of David Cannon and next door to that was the store of Sutton and McKnickle. This house was occupied by a branch of the Banks of Parkersburg and New Salem—commonly called and much more generally known as the Saddlebag and Muttontown Banks. The residence adjoining this was occupied by James Sutton, father and founder of that world renowned liquor called Tuscaloosa, of which it may be said that while its too free use of might cause drunkenness, it was by no means as likely to produce *mania a potu* as such liquors as are now in use.

The small building adjoining Tuscaloosa Sutton's house was occupied by an engraver by the name of Harrison; he may have been the same one who furnished the notes of the bank before alluded to; I well remember seeing him making many impressions for a bank at Granville, Ohio.

Robert Spencer lived in the next house; he was a man of great public spirit and enterprise. I believe that one of his sons still survives, residing at Steubenville, Ohio. Next door was the dwelling of Mr. Anthony Beelen, then agent for the Great American Fur Company of St. Louis, as well as for Tarrascon, Berthoud & Co., the great fur traders of Louisville and St. Louis. His most estimable and charitable wife was a daughter of that widely known and eccentric old lady "Molly Murphy." The next building was a large one partly of frame, partly of brick, occupied by John Kerr, and known throughout the then far-west as a first class tavern. It was called the Ohio and Kentucky Home, and in front of it, along the bank of the river, was a fine row of honey locust trees, in whose shade were benches, which were a popular resort for citizens as well as for the guests of the house. Next door to the hotel was the house of William Knox, a celebrated boatman or freighter, as they were then called. Either in a portion of his house or immediately adjoining was the store of John and Gordon Gilmore, who afterward became money changers or brokers, and were probably the first men who made a regular business of it here. They afterward removed to Cincinnati, where they founded a very extensive banking house. They were succeeded here by John Towne, who was in turn succeeded by the present eminent firm of N. Holmes & Son.

Next door to the broker shop was the boat store of John J. Wright, who furnished supplies to emigrants and others descending the Ohio river, in flat boats and scows, which were for speed and comfort the best substitutes we had in those days, for steamboats and railroads.

On the west corner of Wood street was the tavern and ferryhouse of Wm. Graham, who retired from there with what was then considered a fortune, to private life, and was ever afterwards known as "gentleman Wm. Graham." With which statement I shall close this number so that my third walk along old time Water street may begin at the eastern corner of Wood street.

Minister Washburne's Report.

The following letter from Mr. Washburne to Secretary Fish tells how the imprisoned Americans fared in Paris during the siege:

LEGATION OF THE UNITED STATES, PARIS, Feb. 5, 1871.—Sir: During the past week the people of Paris have been patiently and quietly awaiting revictualment and agitating the question of the election of members to the National Assembly, which is to convene at Bordeaux on the 12th inst.

Small quantities of provisions have commenced coming in to-day. The first train contained supplies sent by the population of London to the population of Paris. These supplies have been distributed among the twenty arrondissements in proportion to their respective population, and are to be given out only to the most necessitous. It will be but a short time, I hope, before all can be reasonably supplied. The lower classes in the city have during the last months of the siege, suffered untold miseries of cold and hunger, and with a patience and fortitude which does them great credit. Indeed, the suffering of all classes has been very great, and it might be said that all classes have sustained the sufferings and privations of the siege in a manner that must excite the wonder and admiration of the world.

Now that the siege is over I am thankful that I have remained through it all, for I believe that I have been of some service to the interests with which I have been charged. It is with pleasure that I am enabled to state that I have succeeded in protecting all American property in Paris, and that no harm has come to any of our Americans who have remained here. This statement must be qualified, however, so as not to apply to the young American, Mr. Swagar, who lost his life by having his foot torn to pieces by a Prussian shell, and to the two young men whose property was destroyed by the bursting of a shell in their apartments in the Latin quarter.

Several attempts were made to interfere with American property at different times, but I must do the Government of National Defense the credit to say that they have treated all such matters as I have deemed it necessary to bring to their attention with the utmost fairness and consideration. In the first place it was proposed to quarter the Garde Mobile in the American apartments; but upon an application to M. Gambetta, then Minister of the Interior, he gave an order that it should not be done. Afterwards the city authorities proposed a special tax upon the apartments of the absent, which bore very heavily upon our countrymen I had a correspondence with M. Jules Favre upon the subject, which I had the honor to transmit you, and by which you will have seen that the city authorities were overruled and the tax not enforced. Then it was proposed to put the refugees from the neighboring villages who had come into Paris into the apartments of some of the Americans. I resisted that, and the intention was not carried out, and when the bombardment took place, and the people from that part of the city exposed to the shots were driven out, it was proposed to shelter them in the vacant apartments in other parts of the city. Many of the apartments of the Americans were threatened in this way, but I gave orders that in no case would I consent to have furnished apartments of Americans occupied in this manner, and I am happy to say that no apartment has thus been occupied. And lastly, after the armistice was declared, and all the troops came into the city, another attempt was made to quarter soldiers and officers also in the vacant apartments of Americans, but I protested against that, and no apartment has yet been occupied in that way. I hope, therefore, that when our country people return to their homes in Paris they will find everything in as good a condition as when they left.

Very little damage has been done to the property of the people of other nationalities with whose protection I have been charged. At one early period the house of a German, Mr. Hedler, was invaded by the Garde Mobile, in search of Prussian spies, and some damage was done to the furniture. Upon my representation of the matter to the Government, Count de Karatry, who was then the Prefect of Police, took the affair promptly in hand, brought the offending parties to punishment, and permitted agents selected by me to assess the damages, which were promptly paid. Immediately after the breaking out of the war I took under my protection the magnificent hotel of the Prussian Embassy in the Rue de Lille. All the persons who had charge of it, down to the *concierge*, had been expelled from France, and as it seemed to be the objective point of the hostility of the Parisian population, I had great fears for its safety. I at once placed it under the charge of an American friend in Paris, who has exercised a most vigilant guardianship over it and protected it from all harm.

While there has been a good deal of hostility against me among a certain number of the population of Paris during the siege, and while I have been assailed in the clubs and in the newspapers on account of my protection of the Germans, I have no cause whatever for complaint against the Government of National Defence. I have been treated by them with the greatest kindness, and with all the consideration due to me as the diplomatic representative of our country.

I have the honor to be, very respectfully, your obedient servant,

E. B. WASHBURNE.

To Hon. Hamilton Fish, Secretary of State.

Orchella.

[From the Alta California.]

Orchella, or Archil the English call it, is a kind of moss which grows on bushes and stones near the sea, and is the only substance from which can be produced a red dye, one of the most precious colors known to the dyer. It is only a few years since the finest orchella dye was obtained, and we presume that the value of orchella is also new. It is only worth about $300 per ton in England, whither it is shipped in bales and there prepared for use in the arts. It grows so abundantly that one person can gather a quarter of a ton per day, so that there is a large margin for profit. The area over which it is found is, however, small, relatively, and therefore the price is high. The supply has been obtained in the past from Angola, Zanzibar, Ecuador, and the Galapagos Islands. Its existence in Lower California was discovered quite lately and it is abundant along much of the coast. We are told that it is not uniform in quality, and experience and skill are necessary in the gathering, so that only the better quality shall be taken. It is said that a large number of persons will soon be sent to Lower California under contract to gather orchella. Orchella has been obtained for centuries from the shores of the Mediterranean, and used for a lilac dye, but was not much prized. The supplies gathered on the shores of Africa and the New World are much superior in quality, and furnish a color that rivals that made from cochineal; and it is said, indeed, that the plantations in which that insect is bred have been very unprofitable for several years past in consequence of the competition of the orchella colors. Whether this valuable lichen is found within the limits of our State we are not informed, but the quantity in Lower California is reported to be very large; and as that territory does most of its trading with San Francisco, we may reasonably hope to share the benefits of the new discovery.

The Mutineers of the Bounty.

There is an island in the Pacific Ocean which was discovered in the year 1769 and named Pitcairn's Island. In 1789, the Brittish government sent out the Bounty to convey plants of the bread-fruit tree from Tahiti to the West Indies, but the crew mutineed, and sent Captain Bligh and others who would not join them afloat in an open boat, and set sail for Tahiti, where they took on board some native men and women, again spread their sails and were not heard of till the year 1808, when Captain Folger, of Nantucket found their descendants on Pitcairn's Island, which had previously been supposed to be uninhabited. On the Island there had been a bloody fight, and only Jack Adams of the original mutineers remained. In 1856 the whole community was removed to Norfolk Island, but some of them afterwards returned to Pitcairn's. Since then they have scarcely been heard from till within a few days. About the middle of the year 1870 Captain John Pardy, of the ship Whittington sailed from California for Liverpool, and stopped at the Island, where he found between sixty and seventy persons living well, but in need of clothing, medicine, &c., and longing for news from the outer world. They gave him the following letter, which, on the 25th of last month, he sent from Edinburg to the *Alta California*:

PITCAIRN'S ISLAND, Oct. 6, 1870.

MR. EDITOR: As many ships pass this island on the route to and from San Francisco, but at too great a distance to board them in our canoes, it is our opinion that they do not know the island to be inhabited. There are no dangers of rocks or shoals, and if they come within a mile they would most always get a supply of fruit, &c. We number sixty or seventy persons, and we always like to show hospitality to strangers and to hear the news. This is the third day we have seen ships pass, and this day one is standing in, by which we send this. The landing is on the north side of the island.

If, dear sir, you would have the kindness to give this a place in your valuable paper, you would greatly oblige your humble servants.

THE COMMUNITY OF PITCAIRN ISLAND.

Weep!

Some years ago, at a public meeting of Baptists in Virginia, among other ministers present were Rev. Dr. B—— and Rev. Mr. P——. At one time during the session Dr. B—— was begging for some object, perhaps a literary institution, when he characteristically indulged in some mirthful remarks, probably to put the future donors in a good humor. Mr. P——, who had very precise views of the proprieties of the house of God, bore this strain of remarks as long as he could, when he arose, and in a very solemn tone, inquired of the chairman whether such conduct was to be allowed in such a place. Then turning to Dr. B—— he said: "How much better, my brother, to make the people weep—my brother, to make them weep." The doctor stood unmoved and erect during this appeal and reprimand. When it was ended, looking over the assembly, he said, with a sober face and a winning tone, "My brother wants you to weep." Then suddenly turning to Mr. P—— he added, "Will you weep, brother P——?" The effect was irresistible.

BURNING AND SHAKING.

By a ridiculous misapplication of language, invalids are sometimes said to "enjoy very poor health," but it is not on record that any human being was ever spoken of as enjoying chills and fever. And yet there are thousands, at this moment, in one or the other of the two stages of the disorder, who might just as well have avoided it as not. If there is anything demonstrable in therapeutics, it is that Hostetter's Stomach Bitters is an antidote to intermittent fevers. No instance can be cited in which it has been taken, either as a safeguard against this class of diseases or as a remedy for them, and failed to produce the desired effect. The season when malarious fevers are rife, has commenced, and no inhabitant of any district subject to their visitations should be without this great preventive and remedy. Indeed it is a most potent protection against all the ailments which prevail in the spring months. From marsh and pool, and from all moist soils are now rising the mephitic elements which give birth to fever, indigestion, biliousness, colics, and a whole host of epidemic and other maladies. Aid the system to resist them. Energize and regulate all the animal functions with this reinforcing agent. This precaution is as necessary in cities as in new settlements, for malarious fevers are now almost as common in the great centres of population as on the borders of the southern bayous and marshes and the rich agricultural regions of the west. The preventive and remedy is accessible to all. Who will be unwise enough to brave recklessly the danger it would avert?

STOVE AND GRATE.
Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

FINANCIAL.

NEW 7-30 GOLD LOAN
OF THE
Northern Pacific
RAILROAD CO.
SECURED BY
First Mortgage on Railroad and Land Grant.
SAFE! PROFITABLE! PERMANENT!
JAY COOKE & CO.

Offer for sale at par and accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States Tax, and are issued of the following denominations: Coupons $100, $500, and $1,000; Registered $100, $500, $1,000 $5,000 and $10,000.

With the same entire confidence with which we commended Government bonds to Capitalists and People, we now, after the fullest investigation recommend these Northern Pacific Railroad bonds to our friends and the general public.

GOLD PAYMENT—Both principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years, and the interest (at the rate of seven and three-tenths per cent. per annum) half-yearly, first of January and July.

PERFECT SAFETY.—The bonds we are now selling are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of the work:

1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments.

2. Over Twenty-two Thousand Acres of Land to every mile of finished road. This land, agricultural, timbered and mineral, amounting in all to more than Fifty Million Acres, consists of alternate sections, reaching twenty to forty miles on each side of the track, and extending in a broad fertile belt from Wisconsin through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon and Washington, to Puget Sound.

While the Government does not directly guarantee the bonds of the Road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon the great national improvement.

THE MORTGAGE.—The Trustees under the Mortgage, are Messrs. Jay Cooke, of Philadelphia and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interests of the First Mortgage bond holders, and are required to see that the *proceeds of land sales* are used in *purchasing and cancelling the bonds of the Company* if they can be bought before maturity at not more than 10 per cent. premium; otherwise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Estate Mortgages for the further security of Northern Pacific bondholders. Also, that they have at all times in thers control, as security, 500 acres of average land to every $1,000 of outstanding first mortgage bonds besides the railroad itself and all its equipments and franchises.

PROFITABLENESS.—Of course nothing can be safer than the bonds of the United States, but as the Government is no longer a borrower, and as the Nation's present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment, while still having a perfectly reliable security that:

United States 5-20's at their average premium yield the present purchaser less than 5⅛ per cent. gold interest. Should they be redeemed in five years, and specie payments be resumed, they would really pay only 4⅛ per cent., or if in three years only 3⅛ per cent., as the present premium would meanwhile be sunk.

Northern Pacific 7-30's selling at par in currency yield the investor 7 3-10 per cent. gold interest absolutely for thirty years, *free from United States tax*. $1,100 currency invested now in United States 5-20's will yield per year in gold, say $62.00. $1,100 currency invested now in Northern Pacific 7-30's will yield per year in gold, $80.30. Here is a difference *in annual income* of nearly *one-third*, besides a difference of 7 to 10 per cent. in principal, when both classes of bonds are redeemed.

THE ROAD NOW BUILDING.—Work was begun in July last on the eastern portion of the line, and the money provided, by the sale to stockholders of some six millions of the Company's bonds, to build and equip the road from Lake Superior across Minnesota to the Red River of the North—233 miles. The grading on this division is now well advanced, the iron is being rapidly laid; several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early Spring, and thereafter the work will be pushed, both eastward and westward, with as much speed as may be consistent with solidity and a wise economy.

RECEIVABLE FOR LANDS.—These bonds will be at all times, before maturity, receivable, at 1-10, in payment for the Company's lands, at their lowest cash price

BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for coupons, the coupons for registered, and both these can be exchanged for others, payable, principle and interest, at any of the financial centres of Europe, in the coin of the various European countries.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these can do so with any of our agents, who will allow the highest current price for all marketable securities.

Those living in localities remote from banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. DR. WHITTIER

CONTINUES TO TREAT ALL PRIVATE DISEASES, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes and which produce some of the following effects as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.

A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, Pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.

It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.

The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

The establishment, comprising ten ample rooms is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 2 P. M. Office, No. 396 PENN STREET.

MONEY AND COMMERCE.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, March 3, 1871.

The local money market is working easily. The banks and larger discount houses appear to be supplied with acceptable paper to the extent of their means, but private lenders have, for two days past, experienced some trouble in getting paper that was entirely acceptable in date and names.

There was some inquiry for A. V. R. R. 7-30 bonds at 89½—and for the stock at 25@26. The new Extension 7 per cents were offered at 86. Connellsville 7's are selling occasionally at 90 and interest. Lawrence R. R. 7's were offered at 87½.

There was nothing doing in bank stock. $25 was bid for Monongahela Water Co. (common stock). No transfers of Columbia Oil stock. The market seems to be barren of this stock. Last reported sale $17—which price is now bid for limited amounts.

The New York market is reported strong and active, with a marked advance in prices, and a large business doing.

Gold is a shade higher, and firm—U. S. bonds are unusually active, and have advanced from ⅛ to ½ during the day.

Dealings at the stock board were upon a large scale. The Vanderbilt stocks are all from one half to one per cent. higher. Reading made ¾ per cent. Rock Island is one per cent. higher. Chicago & Northwest common advanced one and a half—the preferred three and a half. The St. Paul's are dull and heavy. Toledo & Wabash rose over one per cent. Ohio & Mississippi is the most active stock on the list, and closes at an advance of two per cent. Western Union Telegraph is steady but quiet. Express shares are more active and have recovered part of the decline made two days since. Altogether the market is buoyant and appears to be in the hands of the bulls. The New York *Tribune* has the following remarks in reference to the new U. S. loans:

The prospects of placing the new five per cent Government loan are very flattering indeed. It is understood to be the desire of the Secretary of the Treasury that of the 200,000,000 now offered for sale, 100,000,000 be subscribed for American account, and the remainder be sold in Europe, and there is perhaps very little doubt that such will be substantially the disposition of the first lot offered to the public. Assurances from abroad justify the expectation that there will be no serious difficulty in readily disposing of the 100,000,000 which Mr. Boutwell desires to place in Europe, and the inquiry at home points to equally successful results. The bonds will be ready for delivery about the first of May; and those who first subscribe, whether in this country or in Europe, will be first served. The First National Bank of this city, anticipating a lively demand for the bonds and seeing the importance of an early supply, leads off with a subscription for $1,000,000, and the National Currency Bank follows with a subscription for $250,000. The payment for these bonds may be made in gold, or five twenty-six per cent at gold par, at the option of the subscriber. There can be no reasonable doubt that the $200,000,000 now offered will be promptly taken, and probably the remaining $300,000,000 of five per cents, if offered separately, would easily find purchasers; but it is thought that Secretary Boutwell will hesitate to put them on the market except upon condition that subscribers take with the five per cents a certain proportion of those bearing interest at the rate of 4½ and 4 per cent. It will doubtless gratify those who feel an interest in the nation's credit to know that our securities were to-day (for the first time since the war) quoted in the London market at a fraction above British consols, the quotations being for U. S. 5-20s, 91½, and for consols 91¼.

NEW YORK, March 3, 1871.

Gold quiet and steady at 111 to 111⅛, with most transactions at 111⅛. Loans were made at from 1½ to 4 per cent. Clearances $18,000,000. Governments remain strong, the long bonds being favorites; '81s advanced ⅛. There were no sales of new 5 per cent. bonds to-day, although 98 gold, seller sixty days, were bid for them, and they were offered at 98¼ gold, seller sixty days, the option to commence when the bonds were placed on the list of the Board. Stocks were excited and higher. Business continues on an extensive scale and augmented by a considerable amount of outside orders. The features have been New York Central, Lake Shore, Reading, Wabash, Northwestern, Rock Island, Union Pacific, and Columbus, Chicago and Indiana Central. The last name has sold as high as 24¼. There was further advance late in the day, the rise having been led by the Ohio and Mississippi, Lake Shore, and Northwestern preferred. Dealings continue large and excited, the market closing strong at about the highest figures of the day. Money firm at 4 per cent. State bonds generally dull. Tennessees strong.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, March 3, 1871.

There is nothing new or important to be said about oil—no new characteristics worthy of special notice. Hopes are still entertained that there will soon be an improvement, but the indications are not encouraging. As has been the case ever since the 1st of January, there is little or nothing doing; usually two or three sales of crude daily, and it is a mystery to some operators as to what disposition the buyers are making of it at present prices; and occasionally we have a sale of refined, but of late they are few and far between. In regard to prices, there are no important changes.

Three new wells are reported, one yesterday and two to-day. This would indicate that the production this month will hold its own if it does not increase. Considerable anxiety is manifested already in regard to the production of last month, and the forthcoming monthly reports are being looked for with considerable interest. Will the producers get out two reports again?

PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, March 3, 1871.

The market for crude irons continues firm and moderately active, and while, as compared with last week, there has been no quotable advance, the tendency, nevertheless, is still upward. The receipts from all quarters continue light, and all good mill iron that offers is being taken and that, too, at full prices. Since the 1st of January standard forge irons have advanced $2.50@3.00 per ton, and even at the advance the supply is not equal to the demand. All the furnaces in the Mahoning and Shenango regions, are reported as being pretty well sold up, while in the east the production has been cut down considerably by the coal miner's strike, and the offerings from that quarter in this market are comparatively light. There is but little inquiry for foundry irons, and the sales are mostly in small lots, 10 to 20 tons.

At a meeting of the Western Iron Association, on Wednesday, in this city, the price of bar iron and nails was advanced two dollars and a half per ton or an eighth of a cent per pound. The advance was a necessity, as crude irons for some time past have been relatively higher than manufactured, and even at the advance the margin for the manufacturer is by no means large.

RIVER NEWS.

The river continues to recede at this point with 8 feet 4 inches in the channel last evening. Weather very changeable.

The Juniata arrived from Cincinnati last evening with a good trip.

The Wild Duck, Capt. Anawalt, is announced to depart for St. Louis to-day. She receipts freight through to all points west and south.

The Far West, was towed up from the marine ways yesterday, where she has been undergoing repairs, and will at once commence loading for the Missouri River. She will be followed by the new steamer E. H. Durfee. Both of these boats go clear through to Fort Benton.

The Kate Putnam, Capt. Ed Evans, is filling up steadily for Nashville.

The Messenger is expected to arrive here on Monday. She will at once commence loading for New Orleans, Capt. Robert Greenlee, a veteran steamboatman, is in command.

The Mollie Ebert returns to New Orleans from Cincinnati.

The Exchange, will depart for St. Louis today without fail. She is a neat and comfortable steamer, offering superior inducement to passengers, and is in charge of courteous and experienced officers.

Com. W. J. Kountz will soon add another steamer to his already large fleet, we refer to the Katie P. Kountz. She will be commanded by Capt. R. C. Mason, an old and well known steamboatman. The Commodore has been under the weather for some days past, owing, no doubt, to an over pressure of business.

Capt. Dan Moore is in town.

The Carrie Brooks, Capt. Darlington, is the regular packet for Zanesville to-day, leaving promptly at 4 P. M. Messrs. Reppart and Kirker are still associated together in the office.

The Argosy, from Wheeling arrived and departed.

The Granite State departed for Portsmouth.

—A Washington special to the Louisville *Ledger* says as to the River and Harbor bill: As it passed the House, contains an important section to Western river interest, namely: That the Secretary of War be, and he is hereby authorized and required to prevent and remove encroachments upon or obstructions placed in navigable waters of channels and harbors of the United States; said prevention or removal to be made at the expense of the parties making or causing said obstruction or encroachment. There is some difference of opinion whether the word "channels," used above, referred to channels of rivers. If it be so held, then the provision above would make it the duty of the Secretary of War to remove all such obstructions as the Newport & Cincinnati Bridge. It is argued that, as the bill is one making appropriations for a number of harbors and rivers, the term channel applies as much to one as another.

It is certain that the members in the House who were in the interest of the Pennsylvania Central road were very much excited when they heard that this section was in the bill that had passed. It is not doubted that they will endeavor to have it stricken out, either by the Senate Committee on Commerce or by the Senate itself. It is to be feared that the railroad corporation has influence enough with the committee to get them to move an amendment changing this section or striking it out, and in such case the question will be, shall the Senate concur in the committee's amendment? On this the fight will come off, and a majority vote will sustain the section.

The same River and Harbor bill directs the Secretary of War to make an examination or survey of the Monongahela river, from New Geneva, in Pennsylvania, to Morgantown, in West Virginia, and estimate for necessary locks and dams to extend the navigation said river to the last named place.

—The Cincinnati *Commercial* in noticing the death of Capt. P. K. Barclay says: "He was born in Pennsylvania, and was about forty-eight years of age. He was an engineer by profession, and was long identified with the river, and more particularly the Cumberland River trade. He built and commanded the Seventy-Six and Nashville in that trade, and was in command of the new Nashville when seized with his fatal illness. He also commanded the Winona in the same trade. He was an energetic boatman, and thoroughly versed in every department of his profession."

—On Monday evening the steamer Rob Roy blew out her steam drumhead at St. Louis, killing a negro named West Robinson, and knocking overboard two camels belonging to Van Amburgh's Menagerie, and their keeper, Frank Nash. Mr. Nash was rescued and the boat immediately landed, and in the rush for shore a gentleman named Moffat, having a baby in his arms, was pushed overboard, but both were saved by one Mike Gillon, who plunged into the water and brought them ashore. The accident caused a great panic among the passengers.

—The Cincinnati *Gazette* of Thursday says: For building retaining walls for the Louisville & Portland Canal, the bids for which were opened by General Weitzel day before yesterday, McGilinsey and others put in the lowest bid. McGilinsey was the contractor that was furthest behind with his contract last year.

—The Mollie Moore left Cincinnati for Pittsburgh Wednesday evening. She had 400 tons sugar and molasses (her own freight), besides about 50 tons which she received at Cincinnati. Pilots, Nathan Stout and George Littleton.

THE DAILY GAZETTE.

HOME NEWS.

Read the "Real Estate Register."

The United States District Attorney's office is the most neatly furnished lawyer's office in town.

Gone East.—Messrs. Isaac Hippely and Henry J. Gerwig, of Allegheny, left for New York, last night.

Unpaid letters in Pittsburgh Postoffice: Sargent, Joe., New York, 3. Wynkoop, Mrs. L. C., Robella, Pa., 3.

If you want to buy, sell, rent or exchange any kind of property, get the "Real Estate Register" at Pittock's, opposite Postoffice.

Mary Jane Morrison complained to Mayor Brush yesterday, that Matthew Wilbert had beaten her son James. The Mayor sent for Matthew.

For many good bargains see the Real Estate Register. You can have it sent to your residence weekly for one dollar per year. Get a sample copy at Pittock's, opposite the Postoffice.

Decided to be a Lunatic.—B. C. Bosworth, the guardian of the Kanfram heirs, has been judicially decided to be a lunatic, and his duties as such guardian will be imposed on some other person.

The late Dr. Pressly's residence on Washington street, Allegheny is to be sold at auction on Tuesday next at two o'clock. The lot is 80 by 350—truly a magnificent lot. This is a rare chance for purchase. Mr. Leggate's advertisement appears on this page.

On our second page will be found No. 2 of a series of articles on "Pittsburgh in Early Days" written by one of our oldest citizens. These articles will be found very interesting not only to those who have been reading the GAZETTE for fifty years, but the rising generation will find them worthy of perusal.

Financial.—By a telegraph just received from Washington it appears that the following Banks and Bankers have been duly authorized as agents of the Government, to receive subscriptions for the new loan. James T. Brady & Co., N. Holmes & Sons, S. R. McClean & Co., and Masonic Deposit Company.

Assaulting a Minor.—Mary J. Morrison made an information before the Mayor yesterday charging Matthew Wilber with assaulting her minor son. The complainant alleges that the accused wantonly and cruelly beat her son. The parties are residents of the Twenty-third ward. A warrant was issued.

Alarm of Fire.—The alarm of fire from box 54 about three o'clock yesterday afternoon was caused by a burning chimney in the house No. 25 Centre avenue. The engines were on the ground promptly, but there was no occasion for their use, the fire having been extinguished, without damage, before their arrival.

Runaway.—Yesterday morning as a horse attached to a light spring wagon belonging to Mr. H. H. Meyer, dry goods merchant on Ohio street, Allegheny, was being driven by a boy in the Second ward, some boys on the street frightened the horse, and it ran away, completely smashing the wagon. Fortunately the driver escaped unhurt.

The "Children's Jubilee" given in Christ M. E. Church last Tuesday evening, was so highly entertaining to the audience who gathered on the occasion that numerous requests have been made for its repitition. The directors of the affair as yet have not signified their intentions in the matter, but it is to be hoped they will accede to the requests.

A Word from the Wise.—Rev. George P. Hays delivered his lecture, at Minersville, on Thursday night, to a good audience. His subject was "Talk, wise and otherwise." As to talk, he showed them how to do it. We would suggest that in view of the rough weather to-day, a good subject for a lecture would be "Wise and Weatherwise."

Committed for Court.—A hearing was had before Mayor Brush in the case of Hugh Smith, charged by Mr. Lewis, of Sharpsburg, with highway robbery, the particulars of which we published, and in default of $1,000 bail, he was committed to jail for Court. We understand there are several charges before Justices at Etna and Sharpsburg against Smith for various misdemeanors.

A Serenade.—Mr. Philips the Deputy Mayor of East Liberty, was visited last evening by the East Liberty Cornet Band, who "ground out" some of their best tunes in their pleasant manner. Mr. Phillips was also presented with a wreath with this device, "from your German friends." If the size of the wreath was any indication of the number of his friends, we don't know a better befriended many anywhere.

Scavenger in Jail.—Frank Morgan, who follows the business of removing filth, deposited a cart full of that substance on the wharf the other day, and is now luxuriating in free quarters in jail, bestowed upon him by Alderman Floyd, until the fines and costs in two cases in which he was defendant and the Board of Health are the prosecutors, are settled. Money talks, and Morgan will have to realize before he can get out of "quod."

Kerosene Accident.—Yesterday morning sometime between midnight and daylight an accident occurred by which the hands of Mr. Rudolph, watchman at the stables of the Oakland Passenger Railway, were seriously burned. Mr. R. states that he was carrying a lighted lamp in one hand and a can of oil in the other, and by some means the gas escaping from the can ignited and exploded the can. With the aid of a horse blankethe succeeded in extinguishing the fire, but in doing so he met with the accident above stated.

Alleged Pension Frauds.—Judge McCandless, of the United States District Court, on information furnished by United States Commissioner Knox, of Green county, yesterday issued a Bench warrant for the arrest of D. P. Hess, of Green county. Mr. Hess is a lawyer and has been acting as agent for the collection of the pensions of numerous persons in that county, and has failed, it is said, to pay over the sums thus collected. He will be brought to this city on Monday, if arrested, and have a hearing before the U. S. Commissioner.

Blackmailing.—An information was made yesterday by Alderman O'Donnell by John Taylor, charging Thomas S. Wilson, constable of Penn township, with extortion. Mr. Taylor alleges that Wilson extorted a fee of twenty-five dollars from him for compromising a criminal charge. It will be remembered that the prosecutor in this case some days ago entered a suit for felonious assault and battery against the same defendant. A hearing was waived in both cases, and bail was entered in the sum of $1,000 in the assault case and $300 in the other for court.

An Insane Wanderer.

Mayor Brush has received a letter from Nottingham, England, inquiring whether he knew anything concerning one Henry Barton, who, it was understood had fallen into the hands of the guardians of the peace, is an insane man.

No man of that name is known on the records of the Police Court, Workhouse, or any other sorrowful place, but if any one is posted in the matter he is requested to communicate Mr. Barton's present address, be it asylum, penitentiary, workhouse, or other eleemosynary or other penitential institution.

A Scoundrel Disposed Of.

Last night a man, whose name ought to be preserved on file as a scoundrel of the first water, was seen to insult two respectable ladies on Smithfield street, near the Central Hotel. Officer Richards, who was near, arrested him, when he made resistance, but was, notwithstanding, arrested. He says he is from New York, and was barkeeper for the notorious Kit Burns, who, in his life time, kept a rat-pit and dog-fighting institution on Water street, New York.

This establishment, so far from being a voucher of respectability, went so far against him that Smith went to the Work House for thirty days.

Stuart Robson.

This gentleman has long been looked upon as one of the leading low comedians in this country. He has, we believe, rarely if ever extended his tours west of the Allegheny Mountains, but he has for years been the acknowledged favorite of the Philadelphia theatres, and within the past two or three years has made a reputation second to none in his own peculiar line of characters in Boston. He has been connected with such theatres as Mrs. John Drew's in Philadelphia, and a similar one in Boston where only talent of a high order is employed. He will begin a series of his laughter provoking representations at the new Pittsburgh Opera House next Monday evening.

"Tommy" Hampton Again.

The case of "Tommy" Hampton, the child who was abducted from Washington City by his grandfather has assumed no different phase from that reported yesterday. During the morning a detective from Washington City arrived for the child and called at the residence of the relative where Tommy and his grandfather are stopping. An aunt accompanied the detective, and they had an interview with the parties, but as yet nothing has been done looking to a removal.

In the meantime the mother of "Tommy" is lying in Washington City very sick—the illness being brought on by anxiety on account of the affair. The case is an interesting one, and its termination will be regarded with much curiosity.

Horrible Brutality.

We were informed yesterday by a gentleman from Braddocks that on Wednesday a butter pedlar named Hunter, whose horse had stalled on the bank of the river at the upper end of that borough, deliberately took out his knife and disembowelled the poor animal, leaving him writhing on the ground. He then went to his stable and procured another horse, and, succeeded in extricating his wagon. Mr. Palmer, a blacksmith, who heard of the brutality and that the horse was still living, took a pistol and went to the spot and mercifully ended the misery of the poor animal. The indignation of the population of Braddocks was so great when the outrage was discovered that there was some talk of lynching its perpetrator.

Unfortunate Result of a Spree.

Early yesterday morning a couple of individuals were making night, or rather dawn, hideous with cat-calls and other similar vocal pursuits.

Officer Dickson, on whose beat they were, politely requested them to refrain from disturbing the slumbers of the neighborhood, but was met with abuse, and as the parties moved away one of them threatened to put the officer "out of the way" if he followed.

Naturally "riled," Officer Dickson attempted to arrest them, when both men sprang upon him and commenced beating him over the head and kicking him. A fierce struggle ensued, in which Dickson, who was determined to bring in one of his men at least, refused to be whipped, and at last both his assailants broke away and ran rapidly down the street, the officer following closely. All turned up an alley, and Dickson seeing how impossible it would be for him to come out of such a place with a prisoner, drew his revolver and called upon the fugitives to stop. Hall called out something in reply, and jumped a fence and disappeared. McKee was about to follow when the officer fired. The shot struck him between the shoulders, when he fell to the ground crying "I'm shot." By this time several other policemen had arrived on the spot, and McKee was taken to the Central Station House. The wound is not dangerous, and McKee will toe the mark when he gets well.

THE NILSSON SCRAMBLE.

Grand Rush for Tickets—Mania of the Populace—Efforts to be on Hand First—$5,000 Taken in During the Day—Serenity Once More.

It is now pretty generally known that Nilsson is sure to come to Pittsburgh. The various vexatiously harrowing rumors and counter-rumors which harrassed the public mind around our vicinity since the graceful Swedish songstress landed in New York have at last been dissipated in the realities of the sober fact that she is not to slight the Iron City. This was hardly certainly decided upon until within a few days ago, and not until yesterday was it made an absolute certainty—so far as human events go—that she would come.

This certainty which gave so many consolation was found yesterday in the opening of the box office for the sale of seats to the two "evening warblings," with which she is to favor us next Tuesday and Wednesday.

The announcement had been made Thursday that the office would be opened Friday morning, and at once every expectant attendant footed up his cash account, resolved to be first on the list, and began to make his arrangements accordingly.

At one o'clock yesterday morning the policeman on Wood street beat observed a solitary figure muffled in a cloak, meandering pensively in the direction of Kleber's, in front of which it stopped, and assumed a statuesque position. The guardian of the night at first was inclined to officially remonstrate with the figure—but recollected Nilsson and passed on. The hours wore slowly away, and the figure was joined by others, until the man who had resolved to be on hand first at four o'clock appeared, and found himself headed off by sixteen other enthusiastic gentlemen. The night air and the loss of sleep had not put them in the best of humor but had aroused a persistence which nothing could conquer. By daybreak the few had enlarged to a company and at early business hours that company had swelled to a crowd. Several strangers in the city, it is said had rushed frantically to the place supposing there to be great conflagration. They had made a mistake and went again on their way wiser men.

The crowd in patience the vigil kept until nine o'clock, when the door opened slightly and a grand rush was made for it. They were compelled, however, to keep back and form into line, being admitted four at a time into the store. The ticket seller was located in the rear of the establishment and as they gained the entrance, impelled by the same desire, seemed on a small scale to re-enact the scene in the Isthmian games: they ran for the prize, and gathered outside were a great "cloud of witnesses."

The individual who had congratulated himself as being first by his 1 o'clock manoeuvre, found himself egregiously mistaken. One shrewder than he, reposed in his couch at home, but had taken the precaution to "fee" the watchman of the store, who accordingly selected for his patron the first choice.

The ticket agent was kept as busy as a busy bee, and certainly improved each shining hour in a pleasant way, until a shower came down upon the heads of the people outside. They became restive and finally made an attack in force upon the door, breaking one of the largest panes of glass and almost tearing it down. They were then admitted half way into the house, and a scene of excitement ensued. The agent found it impossible to proceed, and announced in stentorian tones that unless order was maintained he would not sell another ticket. The prospective calamity had its effect, and quiet was again restored, a line formed and the sale continued without further interruption.

From nine in the morning until late in the afternoon the agent was kept employed, although after the morning's rush his labors were not so onerous. The result, as footed up, showed $5,000 taken in. For this nearly every seat for Tuesday night was sold, and the great majority for Wednesday night. The financial success was in the highest degree gratifying and the agent was comparatively happy. There were still, however, it is said, according to the prices and arrangements of the Hall, about $2,000 worth of tickets to be sold, but doubtless none of them will be in his hands to-night.

There were many stories afloat as to the fabulous prices paid for seats resold, but diligent investigation proved them to be groundless. So far as we could hear no premiums were paid, except by some whose enthusiasm reached an extent which induced them to employ men to remain all night hovering round the store to be on hand early. Perhaps before the concerts come off there will be tickets sold at a premium, but thus far there have been no such sales.

The furore sensibly diminished after the shower of rain which fell; whether from the dampness which had a tendency to depress enthusiasm or from the fact that the "rush" had been supplied cannot be told. By evening ca'mness reigned not perhaps to be disturbed again until the gentle Swede steps upon the stage at Libary Hall.

LITERARY.

Philomath Literary Society—Entertainment Last Night.

Last evening a very enjoyable entertainment was given in Excelsior Hall, Allegheny, by the Philomath Literary Society, one of the most flourishing organizations of that character in our vicinity. The society has been in existence for about two years, and has among its membership young ladies and gentlemen of fine literary taste and culture, as was evidenced by their performances.

The entertainment last evening, although their first public exhibition, passed off in a highly satisfactory manner and to the entire satisfaction of the large audience which filled the hall, and were cordial in their demonstrations of approval.

The exercises began at half-past seven o'clock, Mr. J. R. McKee presiding. After an introductory musical selection, finely rendered, the regular programme was gone through with in the following order:

Select Reading, "The Famine," Miss E. McCune.
Original Oration, "Beauty" Mr. R. C. Morton.
Essay, "Consummation" Miss M. I. Boggs.
Recitation, "Poor Little Jim," Mr. W. W. Martin.
Essay, "Whither" Miss A. D. Miller
Comic Recitation, "A Precocious Chap," Mr. W. E. Cameron.
Music.
Select Oration, "Truth and Error," Mr. C. A. Herbert.
Reading, "Maud Muller" Miss S. McKee.
Essay, "Love" Miss H. B. Smith.
Comic Recitation, "A Yankee in Love," Mr. J. R. McKee.
Reading, "The Creed of the Bells," Miss E. M. Cargo.
Oration, "A Helpmate" Mr. R. A. Ralph.
Music.
Farce, "The Persecuted Dutchman."

The performances all displayed careful cultivation—that of Miss Cargo especially being an effort of marked elocutionary ability.

The entertainment closed shortly after ten o'clock, about two hours having been employed in the disposal of the programme. The success which attended it cannot be but gratifying to the members, and encourage them to greater efforts in behalf of their organization.

Another Confidence Man.

All the Jones family are not villains, but the name is not unusual, and we may venture to say, and is sometimes assumed by those who by their conduct bring great discredit on that venerable cognomen.

A man who claims to belong to that family has been victimizing the charitable lately. Being a man of good address, nicely adorned with whiskers of ample proportions, and otherwise a "cheeky air," he parades his own charity and makes others go and do likewise. He presents a subscription list, headed by himself, for the relief of a poor widow who lacks means to bury two children who have just died.

There are few who are insensible to the claims of widows, and there are still fewer who are unwilling to come forward to the relief of their fellow-creatures when duly presented by an individual who appears to have any standing in the community.

Jones played his part very nicely, touching up the weaknesses of the charitable; but we regret to say that the funds realized for the aid of the widow have never reached her pocket, and, in fact, the widow herself has never been proved to have any actual existence, being, like the redoubtable "Mrs. Harris," a myth.

Several gentlemen in blue coats with brass buttons and one or two in plain clothes, with a riding-whip duly coiled away, are looking for Mr. Jones, "so called," and we respectfully recommend him, if not too late, which we hope it is, to give Pittsburgh a wide berth.

Brown and Robinson, we need hardly say, are exceedingly indignant at this desecration of the name of the well-known trio.

Mercantile Library Hall.

THEODORE THOMAS' GRAND CONCERT.—The attendance at the first concert of this celebrated orchestra combination, last night, was not so large as the merit of the performance demanded and can only be attributed to the fact that this is the second visit of the company this season. That instrumental music is certainly not among the "lost arts" was fully demonstrated last evening and attested by the frequent enthusiastic plaudits and encores. It is not necessary for us to add a word in praise of the grand and soul-inspiring melody and sweetness of the music of this orchestra. It has met everywhere, it has gone, with the unanimous commendation of all musical critics, and it certainly is well merited. It is wonderful and grand. Miss Anna Mehlig continues to grow in popularity, and if we may be permitted to judge, she certainly is one of the most graceful and perfect artists that it has ever been our fortunate lot to listen to. Her performances on the piano are finished and chaste.

The second concert will be given this afternoon at two o'clock, when we expect to see a large and appreciative audience. The programme is one of the very best, and consists of some of the finest selections from the most celebrated composers. Elsewhere we publish the programme. It will be observed that the *Dream*, by Schumann, (Traeumerei) is included, and that alone should fill the house, as it is a particularly fine composition. We hope to see a crowded auditorium. To-night the third concert will be given and on Monday evening the Thomas season will close.

EPISCOPAL ORDINATION.

Impressive Service at St. Peter's Episcopal Church Yesterday—Deacon J. H. McCandless Advanced to the Order of Priesthood.

At St. Peters Episcopal church, on Friday morning, Deacon John H. McCandless was advanced to the order of Priesthood according to the ritual prescribed by the Church. After morning prayers, read by Revs. W. H. Roberts, of St. Johns, John Scarborough, of Trinity, including the beautiful canticle "Benedicite Omnia Opera Domini," read antiphonally, a sermon was preached by the venerable Doctor Crampton, of St. Pauls, from Matthew V., B. 15 and 16th verses. "Ye are the light of the world," &c. The sermon occupied about thirty minutes in the delivery and was a clear and satisfactory elucidation of the text, which, while applicable to all believers, was especially addressed to the ministers and stewards of the mysteries of God and his ordinances. The words "*Ye are the light of the world*" were spoken by Christ, especially to the ministers of His Gospel and His grace, upon whom it is therefore incumbent that they should be shining examples of humility, fortitude, patience, diligence in all good works and purity of life and conversation; thus illustrating the true christian character, and showing sinners how they should live, leading them in the narrow way, through the straight gate to eternal life. They must not only *preach* the gospel and the words of Christ but must also *live* the life of Christ. Only such as do this can be lights in the world. Personal piety, alone can be the criterian of a faithful ministry. The preacher after remarking upon the necessity of the order of the priesthood in the church and upon the duty of the people to esteem them in the office, turned to the candidate about to be advanced to the priesthood and addressed him with gentle words of felicitation and of admonition and warning. After closing his address

The 97th hymn:

"Go forth ye heralds of my name
Sweetly the gospel trumpet sounds."

Was sung by the choir and the Congregation. The Bishop then read the litany and concluding prayers while the Rev. J. H. Egar, Rector of St. Peters, read the Epistle and the Bishop, the Gospel. The Bishop then addressed the candidate as prescribed in the ordering service, the usual searching questions were put and satisfactorily answered. Then the Bishop pronounced the invocation for strength and power to fulfil all the pledges so solemnly made and accomplish the good work now begun. After this the ministers and people engaged for several minutes in secret prayer and supplication, following this was said antiphonally *Veni, Creator Spiritus* "Come Holy Christ, our soul inspire" &c then prayer by the Bishop followed by the final laying on of hands with words as prescribed by the Church. There were present in the chancel with the Bishop, besides the candidate, the Rev. Messrs. Egar, Scarborough, Roberts, Drs. White and Crumpton, and others whose names we did not learn. These were all in surplices, and joined in the laying on of hands. This most solemn, impressive and beautiful part of the service being ended, the Bishop proceeded with the administration of the Lord's Supper, as required by the Rubric, and closed with a collect and benediction. The congregation was larger than is generally seen on secular days. All seemed to be profoundly impressed with the sacred character of the entire service. The most difficult and arduous part of the office, of course, devolved on the chief pastor of the Diocese, who performed every duty of his high and sacred office with characteristic grace and dignity, seeming to feel that he was adding a new link to the chain of apostolic descent, sending forth a new messenger of the Gospel of Peace to bring back the lost sheep to the fold of the Great Shepherd, whom to love and serve is life eternal.

MEETING IN SOUTH PITTSBURGH.

Hose Company Organized—Committees Appointed, &c.

A large and enthusiastic meeting of the young men of South Pittsburgh was held at the School House last night, called by a Committee of Council, for the purpose of organizing a Hose Company in said borough.

On motion, Justice Wm. H. Barker was called to the chair, and John S. Murray and W. H. Nantker were appointed Secretaries.

Mr. Barker stated the object of the meeting, when, on motion, a Committee of Five, consisting of Burgess Hamilton, James Moorhead, R. S. Jones, John Richardson and Wm. H. Nantker, were appointed to secure the names of persons suitable for membership in the Hose Company.

Justice Barker stated that he saw in the assemblage quite a number of real estate owners, who on the street took a lively interest in the organization of a hose company, but who at this meeting seemed to take no interest in the matter. He would like to see them act. He said that the organization of the company must be accomplished, and that it would be, whether the manufacturers and property-holders assisted or not. The meeting had been in session but half an hour, and in that time twenty-five of the stalwart young men of the borough had put down their names as members.

The Justice also stated that he knew there were a number of gentlemen present whose years would prevent their becoming active members. He would say to them that contributing members would be needed, and that they could join the company in that capacity.

A number of middle-aged gentlemen at this juncture came forward and signed the roll.

Burgess Hamilton, from the Committee on Membership, reported the names of fifty-two active members, and moved that they be organized into a Hose Company. Carried.

Burgess Hamilton, moved that a committee of five be appointed to draw up a Constitution and By-laws. Carried.

The President named Burgess Hamilton, Messrs. James Moorhead, George Noble, John S. Murray and M. M. Schneider, said committee.

Mr. Hamilton asked to be excused, when the name of W. H. Nantker was substituted.

The Committee on Constitution and By-laws will meet at the office of Justice Barker on Monday night.

Adjourned, to meet at the same place on Wednesday next, at 7 o'clock P. M.

THE COURTS.

United States Court—Judge McCandless.

CONFIDENCE MAN SENTENCED.

FRIDAY, March 2.—In the U. S. Court, Judge McCandless on the bench, James Daily alias Chambers, convicted of attempting to pass bogus coins upon an emigrant, was called up for sentence. Daily, it will be remembered, has been in jail over a year, and the Court gave him credit for the time. He was sentenced to undergo two years imprisonment to the Western Penitentiary, and to pay a fine of five hundred dollars and the costs of prosecution.

He was tried twice, a new trial having been granted him, and was convicted both times. After his new trial was granted, District Attorney Swoope wrote Detective to Geo. Smith of Philadelphia to ascertain his antecedents. The detective answered that he had been engaged for years in playing the confidence game on emigrants by selling them bogus money, resembling gold coins, but with a different inscription upon it, so as to avoid the statutes in regard to counterfeiting. But the act of Congress of the 8th of June, 1861 which makes it an offence to make or sell or pass anything resembling money was forgotten.

THE WEBSTER P. O. ROBBERY.

John Huey, convicted of robbing the Post Office at Webster, Westmoreland county, was next called up for sentence. Before passing it His Honor remarked that the offence which the prisoner had committed was a very grave one, and, if the law permitted, merited five years' imprisonment. He then sentenced Huey to one year's imprisonment in the Western Penitentiary, the full extent allowed by law. The quantity of stamps stolen being under $25.00.

UNSTAMPED CIGARS.

R. L. Anderson, convicted of selling cigars that had not been stamped, was sentenced to pay a fine of one thousand dollars, the costs of prosecution, and to undergo an imprisonment of six months in the county jail. This is the minimum sentence allowed by law.

A LAWYER SENTENCED.

S. D. Rotnemel, convicted for not paying his special tax as a lawyer was next called up. He was sentenced to pay the special tax of $10.00, a fine of $10.00, and his costs. The whole amounting to $46.00; which not being paid, the defendent was committed.

District Court—Judge Hampton.

FRIDAY, March 23.—The case of Wm. A. V. Megraw vs. Hailman, Rahm & Co. is still on trial.

Mrs. Stanton in a New Light.

Mrs. Cady Stanton, it will be remembered, came among us a few days ago and talked in Library Hall. Her coming was attended by considerable mystery, as it was not announced under whose auspices she would appear. Many supposed that the lecture was included in the Library Course, but were unpleasantly disappointed when the season tickets were not honored at the door. Inquiries were made on every hand, but little information could be gained, and the gossips finally decided that it was a private speculation, whereat they became wrothy and disclaimed against a woman taking the stage in such a way. Their curiosity was piqued, and that was crime. Mrs. Stanton, it is presumed, heard none of their talk, as she preserved her serenity and discoursed in Library Hall to one of the largest audiences with that winning grace and dignity which has made her one of the most popular lecturesses in the land.

After she had gone, they to whom the secret of her coming was known, became somewhat more communicative, and thus the mystery was explained.

It seems that the managers of a certain mission church enterprise in our city, at their last settlement, found their finances in a disordered condition. In their perplexity a happy thought occurred to one of them, a prominent merchant of the city, as well known for business tact as Christian spirit. Acting upon his suggestion, a correspondence was entered into with Mrs. Stanton, the case plainly stated, and her aid solicited. In reply, she agreed to visit the city and deliver one lecture at half her usual rates, paying in addition the traveling expenses out of her own pocket. She accompanied this offer with a proviso that the matter be kept quiet, and that nothing be said about it save the announcement of her lecture.

The offer was gladly accepted and the great championess of woman suffrage came to the city. The result was an addition to the church treasury of about $500 clear gain, the brightening of financial skies to the managers and an interesting episode in the life of Mrs. Stanton, which will not fail to make her many friends wherever it is known.

Thus is her visit explained. Whatever may be said of her particular theories of suffrage, even the most bitter opponent cannot but admire such evidences of true womanly feeling and Christian benevolence and sympathies.

Presentation.

A very pleasant ceremony came off at the residence of Rev. Robert Morrow, pastor of Trinity M. E. Church, this city, on Wednesday evening. After the usual evening service at the Church had been concluded the Rev. gentleman and his wife started for home, and were somewhat surprised, though agreeably so, to find the greater portion of the members accompanying them. Arriving home the estimable couple found their house pretty well filled with their parishoners, who had evidently gathered for some mysterious purpose. The object of their visit was made known, shortly, by the presentation of a gold watch and chain to Mrs. Morrow,—Mr. J. W. Allison performing the ceremony wittily and pleasantly. Rev. J. D. Knox, a former pastor of Trinity, was called upon to respond in behalf of the recipient, which he did with grace. The watch, in neat lettering, bore the inscription, "To Mrs. N. E. Morrow. Compliments of Trinity M. E. Church, Pittsburgh, Pa."

The presentation was happily supplemented with supper, which being discussed, closed the exercises of one of the most pleasant evenings in the recollection of the participants.

COL. WILLIAM PHILLIPS.

A Deserved Tribute to a Worthy Fellow-Citizen.

Some time ago it was announced unauthoritatively that our much esteemed fellow-citizen, Col. William Phillips, would be a candidate for the office of Mayor of Pittsburgh, whereupon the East Brady *Independent* puts in the following protest. It says:

> We notice in some of the Pittsburgh papers that an effort is being made to drag forward the name of Colonel William Phillips as a candidate for the Mayoralty of that city at the next municipal election. There is no doubt in our mind that the Colonel is one of the most popular as well as the most estimable gentlemen in Western Pennsylvania; and who, perhaps, has accomplished more for the general welfare than any of his cotemporaries. Yet, with all his popularity, and the urgency used to place him in the above named position, knowing and appreciating his public worth, we do most sincerely oppose the movement that would condemn him to the routine of a municipal office. It is not his ambition, nor yet his sphere to assume the Magistracy of a great city, that would narrow his duties to the examination and conviction of the worst classes of society, while his usefulness as a business man would be rendered wholly void by the absorption of his time in such a position. In the name of the great, vital and constantly increasing interests of the Valley of the Allegheny, with which he is so closely identified as President of its important Railroad, as well as of other interests, we protest against the attempt to withdraw him from the various positions he so ably fills, and in all of which his services and his name are alike indispensable. As President of the Allegheny Valley Railroad, he has made it a complete success, and financially changed it from a profitless and almost bankrupt improvement, to one of the most prosperous and valuable public thoroughfares in the country. As connected with various institutions, his name and high business qualifications have given them a character both at home and abroad, establishing his executive ability and penetration in their management.
>
> With such a man controlling the interests of the Allegheny Valley Railroad, it must continue to prosper, and not only add to the wealth of the region through which it passes, but open up other lines of travel, imparting activity, enterprise and general prosperity to the vast territory immediately bounded by the waters of the Allegheny. There are other gentlemen ambitious of the honors of the Mayoralty, who, by experience, would ably fill the position, and we therefore trust that the name of Col. Phillips will be dropped from the list of those who aspire to the place, or would be dragged into it by the partiality of their friends. The services of any other man can be better dispensed with, and the majority of people from Pittsburgh to the upper oil regions will heartily agree with us in our protest against either his withdrawal from his present position, or interference with his duties by the acceptance of any office.

THE SOUTH SIDE.

Items from the "South Side Ledger."

ON DIT—that T. J. Blackmore intends building a Theatre on Carson street, Birmingham, between Eleventh and Twelfth, sufficiently commodious to seat fifteen hundred persons.

A LEADING manufacturer in South Pittsburgh—but who does not reside there—is of the opinion that the funds necessary to secure fire apparatus should be raised by taxation. Inasmuch as the manufacturing establishments render the danger from fire more imminent, should they not be assessed proportionately?

THE First National Bank of Birmingham—the first institution of the kind established on the South side—enjoys in full measure the confidence of our people, and justly. Careful and intelligent management is demonstrated in its continued very substantial prosperity.

THE South Pittsburgh authorities estimate that it will require at least $8,000 to provide the required fire apparatus. The co-operative company offer their building and lot for $7,000, but the council committee will give no more than $5,500.

ONE of our South Side "Reformers" thinks the interference of the lawyers with the fee bill question the heighth of impudence, and proposes in retaliation to get up a memorial on the subject of regulating *their* perquisites or fees.

MR. D. J. THOMAS, sixty-seven years of age, father of Dr. J. D. Thomas, of Birmingham, who had his leg broken a short time since, we are glad to state is recovering and will retain the use of his limb.

THE manufacturers located in South Pittsburgh are not much on the fire protection question. When applied to for material aid they became thoughtful on the subject.

AN acre of ground, located in Ormsby borough, purchased five years ago for $5,000, cannot now be had for $10,000, the present owner refusing to sell at that price.

THE Ormsby authorities are moving in the matter of providing a fire engine house, lock-up and place to hold council meetings.

THERE will be a German Theatrical performance at Turner Hall, East Birmingham, on Monday evening next.

THE glass factory of Challinor, Hogan & Co., in Smoky Hollow, having been rebuilt, is again in operation.

THE post-office will likely be removed to Schaffer's building, immediately opposite its present location.

STILL haunted—the Birmingham market square, by prize package and patent medicine mountebanks.

RENTS on Carson street, Birmingham, are as high, comparatively, as on Fifth avenue, Pittsburgh.

THE Junior Turners of East Birmingham will entertain, at their hall, on the evening of the 20th.

OUR South Side colored folks propose holding a fair during the present month.

IN full blast—the cock pit.

The "Real Estate Register" is *the* authority on real estate matters in Pennsylvania. It is a beautiful forty column weekly paper. Pittock, opposite Postoffice, keeps it.

Tobias' Great Emporium—Inducements for the People

The grand spring opening at Tobias' celebrated "Big 13" clothing store is near at hand. The gentleman will introduce a display of cloths, cassimers and vestings, which he guarantees will eclipse anything ever seen in this city. Mr. Tobias will sell no eastern made clothing this season, but will have all he sells made in this city by his own employees and cut by the most experienced cutters in the business. Gentlemen having suits made to order can rest assured of being thoroughly pleased in every particular, which, in regard to lowness of prices, Mr. Tobias defies competition. The storeroom has lately been enlarged and improved, and the goods on hand are all new, desirable and fashionable. Polite and accommodating salesmen assist the gentlemanly proprietor in the conduct of his business, and patrons can rest assured of being treated in a satisfactory manner. Such are the wonderfull facilities at Mr. Tobias' great clothing emporium that he is now prepared to make a complete suit of clothes on one day's notice. Remember the number, 13 Sixth street (late St. Clair), between Penn St. and the Suspension Bridge.

Don't Forget It.

We take it that every one who desires to hear Nilsson is also anxious to be in that condition of body and mind—that serenity possessing the soul—that will enable him to enjoy the rare musical treat to the fullest capacity. To do this one thing is requisite, and though it may seem intensely material when considering such an etherial subject, it is one of those eminently practical facts which cannot be gainsayed. It is the important truth that the music, or anything in connection therewith, cannot be enjoyed if the hearer is suffering from the disagreeable pangs of hunger. To be perfectly at ease the body as well as the mind must be attended to. So, then, to secure any of our readers against such a bar to the enjoyment of the occasion, we would advise them to drop into Holtzheimer's and satisfy their appetites from the feast which crowns his board. They will appreciate our advice fully by dropping into the Continental, Fifth avenue, below the Postoffice, and testing its practical effects.

Amusements.

PITTSBURGH OPERA HOUSE.—The burlesque of Pocahontas and the drama of the French Spy were put upon the stage in a magnificent manner, and all the characters exceedingly well played. Misses Alice and Emiline as Captain John Smith and Pocahontas were especially happy in their rendition of the parts. Miss Christine sustained the difficult role of the French Spy most admirably and increased her already large circle of admirers by her graceful and effective acting. There will be a Zavistowski matinee and to-night they will close their engagement. On Monday night Mr. Stuart Robson the celebrated comedian will appear.

OPERA HOUSE.—The performances at Manager Beamer's cozy establishment are of the most varied and elegant description. The Demoselles, Rigi and the Kiralfy ballet troupe are unapproachable, while the clog dancing of Messrs. Parkhurst and Collins, and the acrobatic feats of the Walhalla troupe are among the best that we have ever seen. Larry Tooley in his dutch specialties is inimitable, and while he has but few equals, he certainly has no superiors in his peculiar line. Of the prismatic fountains, we can only say that their ever changing colors produce the most beautiful effects we have ever seen. Altogether Mr. Beamer affords his patrons such an entertainment as is rarely given. There will be a matinee at half-past two o'clock, and the usual evening performance.

TRIMBLE'S VARIETIES.—The female minstrel troupe, the Lawrences, and the acrobats, Messrs. Matthews and Hunting, are still the principal features at this delightful place of amusement, and attract crowded houses nightly. There will be two performances today—matinee at 2:30, and in the evening.

NILSSON.—The first concert of this world-renowned cantatrice will be given at the Library Hall on Tuesday night next, when we expect to see such an audience as rarely assembles in Pittsburgh. She will be assisted by Miss Cary, a contralto of great power and sweetness, and by Signors Bignoli, tenor, Verger, baritone, and Mons. Vieuxtemps, violinist, who is said, in his peculiar school, to rival the illustrious Ole Bull.

MASONIC HALL.—The exhibitions of the Silver Show will close with two performances to-day—a matinee at 2:30, and the usual exhibition in the evening.

Loved the Workhouse.

Yesterday afternoon Mayor Brush was quietly reposing in his arm-chair, after the fatigue of his four o'clock hearing, when he was approached by a dilapidated individual giving the name of Thomas Ryan. Thomas' appearance indicated an entire innocence of soap and water, and a commendable freedom from tailors' bills. He expressed a desire to obtain a commitment to the workhouse. He had come from Utica, New York, and had been unable to get work. According to his story such was the versatility of his talent that he could work at anything, but he was a machinist by trade. In reply to the Mayor's inquiries he stated that he had a wife and two children in Utica, but that it was no use going back there, as he could get no work. Farther investigation developed the fact that Thomas had been drinking, and in truth had been on a "bit of a spree," and desired to be sent to the workhouse to sober up.

The Mayor consigned him to the care of the officers of the Home for the Friendless, and advised him to start for home as soon as he was recovered from his dissipation.

A Household Treasure.

A companion, grave or gay, a friend in joy or sadness, a silent comforter in loneliness, and welcome guest in society, is a Mason & Hamlin Cabinet Organ. Its sweet tones will touch a vibrating chord in every human heart, and a its presence will be a well spring of delight in every home. The new patent *Human Voice* or *Vox Humana* attachment, lately introduced in the Mason & Hamlin Organs, makes them the most desirable organ ever presented to the public, and we are glad to know that our citizens appreciate the superiority, which we do know by the great numbers that are sold by the agents in this city, Mellor & Hoene, 53 Fifth avenue. Their warerooms are now stocked with a fresh supply, and lovers of sweet sounds, and especially "*purchasers*," should not fail to examin these Mason & Hamlin Organs before purchasing elsewhere. Every instrument warranted five years. Monthly instalments taken.

Alderman Strain.

Cummings Cherry appeared before Alderman Strain yesterday and made a charge of assault and battery, against Moses Gallagher and a number of others for assault and battery. The defendants are all boys who work at the Fort Pitt Glass Works, and it is alleged by the prosecutor, are in the habit of committing assaults, by way of a joke, on any unprotected party who may come within their reach. A warrant was issued for their arrest.

D. Y. McPherson sued out a warrant yesterday before Alderman Strain for the arrest of W. H. Brooks on a charge of assault and battery. The parties are both residents of Neville township, and the prosecutor alleges that the defendant assaulted him and bit a piece out of his forehead. The accused was arrested and held for Court.

Business Suits.

Hespenheide makes a speciality of pleasing, and for that purpose will allow nothing to go from his establishment that is not satisfactory to the customer. From personal knowledge we feel prepared to say that from this house a suit may be had by the most fastidious which cannot fail to please. Nilsson is Coming.

The Swedish Nightingale will be here next week, and of course every lover of music will desire to be in attendance, consequently Opera Glasses will be in demand and many of our readers will desire to know where they can get a good article of that kind for the least money. We refer them to W. G. Dunseath, No. 56 Fifth avenue, who has a large assortment, every variety in style and price. They will find that nowhere else in the city can they do better, for in quality and price Dunseath is determined not to be excelled.

SHARPSBURG.

Orginization of Another New Bank—The Ladies Fair.

EDITORS GAZETTE:—Our town is rapidly growing in wealth, population and importance. The storm of excitement that attended our street improvements has nearly passed by, and our people are now enjoying, and appreciating the good results. Property is advancing in value, and the coming building season promises to be one of more than ordinary prosperity.

Another new bank was organized here this week by the election of the following Board of Directors: Hon. F. H. Collier, A. Kelly, Geo. Chalfant, James Saint, Jacob Covode, L. W. Lewis, Hon. T. H. Gibson. The new institution is to be known by the name of the "Farmers and Mechanics Savings Bank" of Sharpsburg Pa. A President and Cashier will soon be elected, when the Bank will enter upon its legitimat business.

The "Ladies' Fair," in the Hall of Hon. T. Gibson, still goes on with unabated interest. During the last two weeks the attendance has been very good, and the liberality displayed by the citizens has been beyond the most sanguine expectations of the ladies. The contest on the new iron plow is very close and spirited. The contestants on the gold watches are working with commendable zeal in order to secure votes and get the valuable rewards for their labor. During the next two weeks the interest in the fair will be increased, as a number of valuable articles will be awarded to the successful candidates each evening. The table is still spread nightly with the good things of this life, and we advise all persons who want to spend an evening pleasantly to go to the Ladies' Fair—the proceeds are for the benefit of the church.

WASHINGTON, PA.

A Sad Accident—Two Men Lose Their Lives—Court—Criminal Cases—Robbery, &c.

WASHINGTON, March 2, 1871.

EDITORS GAZETTE: A sad accident occurred yesterday afternoon half way between here and Canonsburg. The boiler of a portable saw mill exploded, instantly killing two men—Mr. Tapman Wiley and a Mr. Boyce. The former had his head well-nigh sundered from the body, and was otherwise fearfully mangled. He was an excellent man, and a member of the First Presbyterian Church of this place. He leaves a young wife. Of Mr. Boyce I cannot write as I did not have an opportunity to obtain any information about him. The accident, so sudden and so sad, shocks the whole community. The cause of the explosion is not known. It is supposed to have been the want of water in the boiler.

THE COURT.

For two weeks it has been in session. It is employed on criminal cases. A colored man by the name of Jerry Knight has been tried for the murder of Brown, another colored man. The jury returned a verdict of guilty in the second degree. He has not yet received his sentence. Another colored man is now being tried as an accomplice of Knight.

ROBBERY.

Last night our jolly townsman Robert Strean had his store broken open and a lot of hardware abstracted. The door was pried open; no clue yet to the perpetrator of the deed. AMICUS.

AN ENGLISH PATENT.

For a Pittsburgh Invention.

In the patent journal of the London *Engineer* for February 31, 1871, we find the following concerning a home invention:

1904, J. Y. Smith, Pittsburgh, U. S. Furnaces for separating ores, dated July 5th, 1870.

There is a cylinder or pully around which the endless apron is carried and a magnet cylinder around which the apron also passes. This cylinder may be constructed in three parts, namely, the two pulleys, which, with the shaft, carry the apron, and an intermediate part, the surface of which is formed by a series of magnets, which may be either permanent or electro-magnets. These magnets are attached to a central core of wood, and, as it is sometimes desirable to make the magnets revolve at a speed different from that at which the belt travels, the shaft of the central core should pass through tubular shafts which carry the pulleys. The magnets may be arranged to present their points at the periphery of the magnet cylinder; or they may be bent so as to present the sides of the magnets towards the apron, thereby increasing the extent of the magnet surface. The ore is poured from the hopper upon the surface of the apron, and in this form of machine the non-magnetic particles will fall by their own gravity from the apron as soon as they have been carried beyond the horizontal diameter of the magnet cylinder, whereat particles of iron or magnetic ore will be held by the attractive action of the magnets against the apron until, when the apron carried away from the magnetic cylinder passes beyond the range of influence of the magnets, the particles of iron, or magnetic ore will fall by the action of gravity from the apron. To facilitate the separation of the non-magnetic from the magnetic particles a blast of air from a fan carried through pipes may be directed against the breast of the cylinder.

RIVER PIRATES.

A Midnight Hunt—One Man Captured and One Man Drowned.

The New York *World* says: For the last few days complaints have been made that the Jersey coast was nightly infested with a gang of human water-rats, whose depredations among the craft lying at anchor were numerous and unprofitable to sea captains. On Tuesday night Chief of Police Whitney, of Bayonne, Jersey City, was advised of a contemplated raid by the river pirates on the shipping in the bay, and securing several companions, proceeded on a cruise in a boat about midnight. The party had not been long out on the river when they came up with a sail-boat, keel upwards, and a man clinging to it with all his might. They rescued the almost drowned unfortunate, and placed him under arrest. He said his name was Thomas Forrester, and that he had a companion on board with him named Timothy Covel, who had sunk to rise no more before the chief and his party saw the capsized boat. Both men resided in Jersey City. The drowned man leaves a wife and six children. Some of the Jersey City police official visited the residence of Forrester, corner of South street and Greene street, Jersey City, and on instituting a search discovered numerous silver articles bearing the inscriptions, "City of Baltimore" and "America," which undoubtedly had been stolen. The articles were principally cutlery and spoons, but a quantity of clothing was also found. Forrester has been committed for trial. The body of his more ill fated comrade has not yet been recovered. The boat which contained the men and their plunder was found on the beach near Bayonne yesterday afternoon.

Stamps on Mining Deeds.

UNITED STATES INTERNAL REVENUE, Supervisor's Office, California, Nevada, Utah and Arizona.
SAN FRANCISCO, January 31, 1871.

The attention of all interested is hereby especially called to the stamping of deeds in cases where several individuals owning undivided interests in a mining claim incorporate, and to convey to such incorporation thus formed their said interesrs, receiving stock therefor. The question as to the amount of stamps required under the law, having been referred by me to the Department, Hon. Commissioner Pleasonton writes me, under date of January 18th, 1871, that such deeds "fall within the rule contained in paragraph 7, part 14 of series 5, number 10," laws and regulations of Internal Revenue Department, and further, "that in stamping the deeds under the said rule the market value of the stock should be taken as a consideration, without regard to the par value of the same." In cases where the market value of the stock cannot be otherwise determined, the actual value of the property conveyed must necessarily be taken as a basis upon which to determine the market value of said stock, and such deeds must be stamped accordingly, with a fifty-cent stamp where the consideration is $500 or less, and fifty cents for each additional $500 or fractional part thereof. Internal Revenue officers in California, Nevada, Utah and Arizona have been and are hereby specially instructed that the penalties prescribed by the law must be enforced in all cases of violation in the above mentioned particulars hereafter occurring.

Very respectfully,
LOUIS FOULKE, Supervisor.
